SLIP AND GRIP

This cover is manufactured with a unique blend of polyethylene films to create a tacky back side surface. This holds the cover in place as the technician slides in and out of the car.

ECONOMY

This cover is designed to give maximum protection at minimum expense. It is strong enough to be used more than once.

HEAVY DUTY

This cover is made of 1 mil. polyethylene. It offers maximum protection at a competitive price. It can be reused many times.

HEAVY DUTY TRUCK

This cover is 5" longer and a heavier gauge material than our standard tacky back cover. It is designed to fit over the road tractors, luxury cars, or airplanes. It also has the tacky back feature.

PREMIUM SEAT COVERS

These covers are individually folded in a box. If you don't have space for a dispensing rack or your technicians are used to using a folded seat cover, we have the one for you. Also available on rolls.

STATIC CLING REMINDER STICKERS

This is an excellent item to promote repeat business. It keeps your name, the service to be done, and the time to do it in constant view of the customer. Much more effective than a door jam sticker. The static cling vinyl will cling to almost any smooth surface. We suggest placing the sticker in the upper left hand corner of the windshield. There is no adhesive residue and they can be removed for cleaning and replaced. We use a silk screen printing process for a high quality imprint and a writing strip that won't allow the ink to fade. We guarantee it, and no special pen is required.
