Dear Storage Customer,

Thank you for choosing Gerard's Waters Edge Marina for all of your boating needs and storing with us in the past years. We hope that you are currently enjoying your 2016 boating season.

As the summer winds down to an end, we are starting to think about winter storage!

Enclosed please find your 2016-2017 winter storage contract along with a storage pricing & service form. Due to increases in storage demand, a \$500 deposit will be required by September 15th 2016 to hold your place in our facility. If you are unsure of which services you need, please contact the office for service history and recommendations. For example, water pumps should be done every 4 years, bellows and flappers should be done every 5 years, fluids and filters are recommended every year.

As an added service, we build, repair and store docks, jet ports, boat & PWC lifts and swim platforms. If you wish to have your dock disconnected, stored and/or repaired please request those services well in advanced as well. The cost varies on dock storage so please contact us at the office for a quote. We can fit all of your storage needs and have your dock reconnected and delivered along with your boat in one simple step come spring. As the season length fluctuates, we may take your dock as early as September on request or as late as November.

*** Perhaps it is time to upgrade. Inquire regarding purchasing or trading in your current boat for a new 2016 or 2017 Tigè High Performance Wake Boat, South Bay Pontoon or Four Winns and save big on storage this year! ***

In an effort to keep our files current, we ask that you please carefully review your information on your contract and make any corrections as needed. **Please be sure to return your 2016-2017 storage contract signed.**

As always we appreciate your continued business. If you have any questions, please feel free to contact Garret or Riley at the office.

Sincerely,
Gerard & Krista
