Value Type Definitions

Suggested List – We have included manufacturer's suggested retail pricing (MSRP) to assist in the financing, insuring and appraising of vessels. The MSRP is the manufacturer's and/or distributor's highest suggested retail price in the U.S.A. when the unit was new. The MSRP is furnished by the manufacturer and/or distributor and are assumed to be correct. Unless indicated, the MSRP does not include destination charges, dealer set-up, state or local taxes, license tags or insurance.

Low Retail Value — A low retail valued boat will show excessive wear and tear either cosmetically and/or mechanically. This boat may or may not be in running order. The buyer can expect to invest in cosmetic and/or mechanical work. Low retail vessels usually are not found on a dealer's lot. **Low Retail is not a trade-in value.**

Average Retail Value — An average retail valued boat should be in good condition with no visible damage or defects. This boat will show moderate wear and tear and will be in sound running condition. The buyer may need to invest in either minor cosmetic or mechanical work.

Note: Vehicles/Vessels in exceptional condition can be worth a significantly higher value than the Average Retail Price shown.
