Furs

I wanted to send a note of thanks for another successful fur tanning order. This year's order turned out great and I am as pleased as I can be. Some of the furs will be sent to a friend of mine who just started trapping last year. Thanks to your quality work, I'm sure he will be a regular customer of your company for years to come. I recommend you to anyone who asks me about having fur tanned. Be sure to check out your booth at the NTA rendezvous this weekend.

Keep up the good work and God bless!

Randy Matula

Beaver Coats Style

Should I choose the color added or dyeing process for my furs?

If you feel your pelts do not match, check that section of the order form. We’ll look over your pelts carefully. If it is recommended, we let you know. You will choose if you want this matching color service added.

Can I tell if the color blending or dyeing process has been done?

No, the whole garment bundle will look natural and uniform. Just like you selected the best matched bundle from hundreds of pelts. The color blending does not come out or even fade. Almost all beaver garments sold in the retail fur stores have the color added process. It adds to the richness of the furs.

COLOR ADDED
(Reccoon) - the under fur is blended with a tint to make them all appear uniform and natural. Bleueting is added on fur garments to make them appear natural and uniform. Allow 2 months additional time of processing.

BLENDING (Beaver) - the under fur is darkened and blended more uniform. Your garment will look like you selected your pelts from the finest 1000 graded pelts at the fur auction. Allow 2 months additional time for this process. See picture of beaver prakas on back cover. Add $12. per pelt to make your fur look the finest possible.

DYEING (Beaver or Muskrat) - the whole pelt is uniform throughout. Black or deep brown (Matera) is normal. We work with some of the best dyers in the world. Add $28 for beaver & $10 for muskrat. Allow 2 months additional time of processing.

PLUCKING/SHEARING - only the finest heavy winter or spring beavers quality for this process. The guard hairs are removed from the pelt. Then the silky under fur is sheared to 15 mm. This is extremely soft and silky. This process is considered by many to be the ultimate in north American furs. Plucked, sheared & dyed beaver coats retail for over $1,500. Yet through USA Faux you can have the same quality (using your own pelts) for around $1,500. A tremendous saving. We charge $38 to pluck & shear your beaver or $66 to pluck, shear and dye your pelts most any color. This is the current trend for furs nationwide at most exclusive fur stores.

* For the premium plucked and sheared beaver garments, request double shearing, grooving or diamond cut process for only $100.

BLEACHING - this process will remove about 75% of the color in a pelt, it will appear much lighter. Normally part the darker color in the greizen (center or the back) is still present, but the body and belly fur is quite a bit lighter. This works wonderful on raccoon, marten, muskrat and even beaver. For the pale beaver of western USA the pelts will appear almost white and for the beaver from the Midwest or eastern beaver, the pelts will be a cream color. This is a very attractive method of enhancing the appearance of the pelts.

Natural Beaver Jacket
A. Wing Collar, Dolman Sleeves, Zipper, 7 Pelts, $644

Plucked, Sheared & Dyed Beaver Stroller
B. Full Collar, Dolman Sleeves, Slender Style, 10 Pelts, $711

Questions? Call 1-800-USA-FOXX or 218 722-7742. Best time to call 8:30 am to 5:00 pm Monday through Saturday. We are closed in the summer on Saturday.
Now that you've selected out your coat length & style on page 19, you are ready to pick the details of the coat to accent YOU! Before choosing the custom details, be honest with yourself. What figure do you cut? Read the explanations for figure A, I, O, H and X. Check the box to the left which best fits your figure. This will give you some ideas when choosing a collar, sleeve and cuff on the bottom half of this page.

Narrower bust, wider hips.
Accent your "A" figure by choosing tuxedo, full collar or hoods to draw attention AWAY from your hips. Pattern on sleeves - diagonal or dolman look great.
NO-NO's for the "A's" - Jackets - they stop where your hips start.

Bust, waist, hips fairly even, slender body.
Accent your "H" figure by choosing patterns to give the appearance of fullness. Fuller collars, fuller cuffs, fuller sleeves.
NO-NO's for "I's" - Tuxedo collars - they will make you appear more slender

Bust and hips, fairly even, larger waist.
Accent your "O" figure by choosing styles to appear taller. Use straight line features - straight sleeves, no cuffs, stand up collars.
NO-NO's for "O's" - Additional features in sleeves -they draw attention to the center.

Bust, waist, hips fairly even, fuller figures.
Accent your "H" figure by choosing up & down styles will give the appearance of height. Tuxedo collars are best.
NO-NO's for "H's" - Jackets with long fur will make you appear very full.

Bust & Hips fairly even, smaller waist.
Accent your "X" figure by - lucky you - choose the features you like, use several features, fuller collars, sleeves & cuffs.
NO-NO's for "X's" - very few.

Now that you've determined which figure fits you, you can make a better choice on which collar, sleeve and cuff that you want. Yes, it's your choice at USA Fox & Furs! Pick a collar, sleeve and cuff that's best suited for your lifestyle and your figure. It's as simple as A, B, C!

A. Collar

None
Stand-up $33

Wing $33
Full $33

Tuxedo $33
Split $33

Hood $55
Detach Hood $100

B. Sleeve

Straight

Diagonal $33

Dolman $33

Dolman Diagonal $33

C. Cuff

None

Diagonal $33

Full $33

Inset $33

Fourth. Now that you've made your personal choice on the garment you want. Turn to page 25 for everything you need to know about making your personal garment.

</tr>
</tbody>
</table>

## NOTE

1. The following Pelts are always case tanned:
   - Bobcat, Coyote, Ermine, Lynx, Marten, Mink, Wolf
2. Want a different animal case tanned? Please Add $1.00 per pelt and write a note on the tanning form.
3. We have a FLAT FEE of $19.95 for shipping/handling on EVERY ORDER WE SHIP.
4. If you pick up at our facility we have a $10.00 handling fee.
5. Pelts must be stretched & dried or salted & dried before shipping to us, otherwise we will charge for fleshing & drying.

## FLESHING SERVICES

1. We offer premium fleshing services, if you choose to have us flesh your pelts, Look over page 26 for shipping instructions or call 1-800-872-3699 or email us at info@usafox.com.
2. Send Pelts frozen
3. SHIP MONDAY OR TUESDAY ONLY. If you live in the midwest use any shipping service, if you do not live in the midwest use 3-2 day service - see page 26.

Special Instructions - Specifications
Fourth.
You've now picked out your personalized garment. This page will answer most questions about the process. To the right is a chart for how many pelts are needed for a garment and details on what you are selecting.

Fifth.
Find our more about tailoring turn to pages 26-32. For more about accessories turn to 34-38.

How long does it take to make?
Once we receive your tarned Pelt we usally take 3-6 weeks. During the peak season it may take longer. Custom manufacturing your fur garment is all done by very skilled professional furriers with a great deal of experience. Since we do not get paid in full until it is complete, we will NOT sacrifice quality for speed. We'll do it fast and we'll do it RIGHT. We guarantee it.

What about RUSH Service?
It is available, just ask for details.

What lining do I get?
- Color coordinated silk hemsberg is the normal lining. It is long wearing and easy to clean.
- Premium silk lining is available for $150 additional. Use with the premium garments.
- Initials, if requested, will be embroidered into your lining.
- Pockets
- Appraisal for insurance purposes
- Fur garment home storage or travel bag

When do I pay for garment & blanket orders?
- Garment & Blanket Orders - 3 equal payments. Usually 1/3 with the order, one payment in the summer & 1/3 upon completion. We can send a payment schedule with your invoice.
- Send no money with your order; upon receipt of your fur and order, we will send an invoice with a payment schedule.

How do I pay for this?
- Check or money order
- Credit card (Master Card, Visa, Discover or American Express)

Will I be satisfied?
YES, we guarantee it with a 100% money back guarantee. If you are not satisfied just return it to us within 30 days and we will refund all the monies you have paid us.

How do I know you'll use my Pelt?
We tag each pelt with your own number on a plastic tag that stays with the pelt during its entire journey with USA FOX & FURS.

YES, we'll return any FULL Pelts with your garment. We will return the tanned tails with the garment if requested. We do not return the fur scraps.

How do I read this chart?
- Example: Let's say you want a Coyote Stroller
- Stroller: 10 Pelts
- Total MFTG Cost: 11 Pelts x $21 = $231
- Total Cost of Manufacturing & Tanning: $942

Appraisal value of Coyote Stroller at most retail stores $3,000.
You save a bundle by using your furrier,
USA FOX & FURS
**My Pelts/Hides are FROZEN. How do I prepare them?**

**When should I ship frozen pelts/hides?**
Frozen pelts must be shipped on a Monday or Tuesday ONLY. If they are shipped Monday we should receive them Wednesday, pelts shipped Tuesday should arrive Thursday.

A. If you live in the Midwest (MN, WI, IA, ND, SD, IL, NE, KS, MI, MO, IN, KY, OH) you can use ground service such as Priority mail, UPS ground, Fed Ex ground or SpeeDee Delivery and we will receive them in 1-2 days.

B. If you live in any other state you should send your frozen pelts via a 2 day service, such as UPS Blue label or Feed 2 Day Service. Overnight service not needed (US Mail will not guarantee delivery times for Express Mail).

**How do I ship frozen pelts/hides?**
When shipping a frozen pelt it is important to remember that USA FOXX needs to receive it by Friday, this ensures that your prize will not be held by a shipping agent over the weekend. Remember to remove from the freezer, pack and ship as timely as possible. If your frozen shipment weights more than 20 lbs many use a plastic container, so fluids do not leak out and ruin your packaging.

**How do I Pack FROZEN pelts/hides?**
A good way to pack your frozen pelts is wrapped with lots of newspaper inside of a cardboard box and sealed with packing tape. On frozen large game, a plastic bin works very well and use a lot of news paper for insulation. No packing peanuts please!

**How do I prepare frozen pelts?**
After skinning it is a good idea to brush out all burrs and debris from the hair side of the hide, then lay flat in the freezer for 1 hour prior to folding. If folded immediately, the inside of the fur will not freeze quickly, perhaps allowing slippage to occur. Pelts tend to insulate themselves from the cold pretty well so it could be an extra day till the inside of the pelt freezes.

**Can I salt and then freeze my hides/pelts if they are not fleshed?**
NO. Salting a pelt to freeze it is not a good idea. The salt and cold just do not mix. Think of the highway department salting their roads to thaw the ice, same thing with your pelt. If you have a salted pelt, it would be best to take it out of the freezer, remove the salt and then re-freeze.

**If I send a frozen Bear, how does USA FOXX prepare it for me?**
Our fleshing staff will prepare your bear for tanning by splitting the lips, turning the ears and turning the eye lids, we will also skin out paws and the tail. This will make it easy for mounting at any time in the future. We charge $100.00 for this service.

**SHIP FROZEN PELTS ON A MONDAY OR TUESDAY ONLY**
We need to receive them BEFORE the weekend to make sure they stay frozen!

- **If you live in these states, send your frozen pelts by regular UPS, FedEx, SpeeDee Delivery or Priority Mail:** We’ll get your shipment from the above states in 1-2 days and that is fine.
- **If you live in these states, send your frozen pelts by 2 day FedEx or UPS Blue Label. You do NOT need to send overnight, the 2 day service is fine.** Be certain you do NOT send by regular UPS or FedEx or US Mail; you are risking spoilage of your valuable pelts.
My Pelts/Hides are DRIED. How do I prepare them?

When should I ship salt dried or dried pelts to USA FOXX?

Air dried or salt dried pelts can be shipped any day of the week since thawing is not an issue. Remember, you can shake off the excess salt to make your package lighter. Be sure to fold up your pelt before it is completely dry or it will become too stiff to fold well.

How do I ship fleshed, salt dried or fleshed, stretched & air dried pelts?

Dry pelts, salted or air dried may be shipped at your convenience. USA FOXX receives pelts 6 days a week. If you ship your pelt, dry, make sure to shake the excess salt off, it only adds to your shipping bill. Dried pelts may be folded to fit into your shipping container (box, bin or bag) and shipped by ground service. There is no need to ship a dried pelt by an expedited service or in a plastic container.

How do I package fleshed & dried pelts/hides?

To ship salt dried or air dried pelts any shipping container will work, such as: auction bag, cardboard box or plastic bin. Newspaper makes a good packing material for dried pelts, please no packing peanuts.

Can I prepare my own pelts for tanning?

Yes. A good brushing after skinning is very important, burns and mats can cause holes and more mats during the tanning process. Pelts can be air dried on stretch, skin side out. NO NEED TO FLIP, so no more torn bellies. We do not need to see the fur to grade it and we have to flip it fur side in to tan your skins anyway.

Tip: Common Problems

You can Prevent Prior to Tanning

Problem: Fat Left On The Hide.

Any fat/grease left on the skin will almost always have a bad effect on the skin after tanning. Our alum based tannin is a water based and animal fat/grease is pure oil. Grease left on a skin will seep into the skin like mink oil on your favorite boots. Once that happens, any tanning process will NOT work. The result is a hard, brittle patches on your tanned pelt and possible hair loss as well.

Solution: Clean All The Fat Off Your Pelt Prior To Sending For Tanning

Problem: Mats

A couple of situations can lead to this problem. The easiest to fix is burns and debris in the fur. A good combing prior to stretching will stop mats from burns. The next problem is seasonal change: just like your pets, wild animals also change coats twice a year. (shaving up). Blue coats is a good example. The skin is still so thin that upon fleshing you have already exposed the root of the hair and it now has nothing to hold it in place. As it works it way out it will tangle with the hairs around it will begin to form a mat.

Solution: Skin As Soon As Possible And Then Use Stop-Rot To Prevent Fur Slippage And Then Dry, Salt Or Freeze Your Pelt.
F.A.Q. on Preparing Hides for Tanning.

Will USA FOXX notify me when the pelts/hides arrive? (Be sure to give us an email address!)

YES. If you provide an email address with your order, USA FOXX will email you upon the arrival of your pelts. We will alert you to any potential problems at that time as well. If no email address is included your invoice will be confirmation of receipt.

How long does it take to tan?

Our tanning completion times vary at different times of the year. Our capacity remains steady, however as volume increases it makes for longer lead times. Early in the year (Jan., Feb.) it should be between 2 to 4 months. Later in the year (March to June) it will increase to 3 to 5 months. In the summer and fall (July through Oct.) it will be 2 to 4 months and the early winter months (Nov., Dec.) it is normally 1 to 2 months. These times are all general and can vary quite a bit due to increased volume or decreased volume.

How do I pay for this?

USA FOXX accepts several different payment options.

A. You can pay anytime after receiving your invoice during the tanning cycle.
B. 50% with order 50% upon completion
C. 100% upon completion by credit card or COD

Does USA FOXX do taxidermy tanning?

At this time USA FOXX does not specialize in taxidermy tanning; we will do deer capes and bear capes or hides but as far as tanning for taxidermy there other tanneries and taxidermists that are very capable in this area.

Will you send my skulls back? How long and what cost?

If requested, USA FOXX will return all skulls right after the fleshing process (for an additional cost of $19.95 per order), they will be shipped early in the week sealed in a plastic bag. It will probably be stinky when it gets back to you.

Will USA FOXX clean, whiten my skull? How long does it take?

We now offer skull cleaning service for a cost of $7.50 for large game, $2.00 for deer, $1.00 for small game and $2.00 for fur bearing animals. Depending on the time of year it should not take longer than 90 days (the beetles are not always hungry!) We finish the skulls with a peroxide bath so the bone will very white and intact.

How long does it take?

Yes, it will. Your pelt will come back to you approximately 10 to 15% smaller than it was before you stretched it. After you receive your tanned pelt back you can always wet and restretch your skin to obtain its original size. Because we use a salt and alum tan this will not harm your pelt.

What are the two ways that USA FOXX tan Beaver?

USA FOXX can tan your Beaver pelts two different ways, just let us know what you want with your order.

A. The HOOP or trapper tan has a thicker leather and fewer scars that open up during the shaving process and slightly less supple than our garment tan. This style is perfect for hanging on the wall, it will also work for hats and mitts. This heavier HOOP/trapper tan is what most other tanners use.

B. Our GARMENT tanning is the best there is. It is thick enough to hold the hair and thin enough that it will make a sublime garment! It is also the recommended style for garment, blanket or for plucking/shearing. The leg holes will be cut out and an extra pass over the fleshing knife on garment tanning orders will make more open holes (which we will close by sewing) than the HOOP/trapper tan, but makes for beautiful, soft, silky skins to sew into whatever project you like.
Fleshing Services

We hand flesh every pelt the old fashioned way, and we do it right. Our team of fleshers have many years of experience. At USA FOXX & FLRS we flesh over 8000 pelts annually. Just follow the instructions on page 26 to ship it to us.

Picture on the Right: BEAR Fleshing by BARE Fleshers having fun on Casual Friday at USA FOXX. Ladies Welcome. After 25 years we still love helping trappers and hunters properly prepare their valuable pelts/hides for the best quality-tanning results. We always appreciate your business!

</tr>
</tbody>
</table>

Add $20.00 per animal if you send the whole carcass; no whole skunks.

Rest assured, your pelt is in very good hands when you choose us.

Tip: Preventing Slippage/Bald Spots After Tanning

This occurs when a skin is NOT prepared quickly and decomposition sets in due to the animal's natural bacteria. This bacterium starts working immediately and will, until the skin is frozen, dried or salted. Felines (Bobcat & Lynx) are the most susceptible to this problem due to the type of bacteria they contain. Most everyone has thrown a critter into the home freezer because you didn't have time to skin it right now. First of all, the critter with all the skin and fat will NOT freeze rapidly and secondly when you pull it out to thaw, the top will thaw quickly while the part on the ground won't. Generally speaking, if it smells you should expect problems. Pay extra attention to ears and dry carefully or use EXTRA salt in the ears to prevent slippage. The best way to freeze a pelt is by the pelt out flat in your freezer until cool. Then roll the hide up and let the whole hide freeze. If you put several rolled up pelts in a home freezer, just remember it may be several days before the center pelts are frozen, this additional time allows for bacteria to work even though you thought it was frozen. Just remember the tanning process can NOT make the hair come off, only improper care prior to tanning will make this happen.

Solution: Skin And Dry Or Freeze Your Pelt As Soon As Possible

Stop-Rot™ Will STOP Fur Slippage/Fur Loss

Stop Rot was developed as an aid in preserving fur, hair and epidermal slipp. It extends the work time of a fresh hide by slowing down or stopping decomposition. In essence it is a short term preservative. Highly successful on preventing slippage and bald spots. One quart will do about 3 Bears, 20 Bobcats, 12 Coyotes or 9 Deer. Use it on all questionable hides and pelts. $16.75 per quart (add $3.00 for shipping if this is all you ordered. If we include with the rest of your order, SHIPPING IS FREE.)
Fast Completion Time & Quality Garment Tanning

Look at the chart below to see which month you are shipping your pelts. Then look at the numbers below, this is the approximate time, in months, it will take to complete and ship your pelts back to you. Please allow 1-3 months longer for any Plucking, Shearing or Dyeing.

Questions? Call 1-800-USA-FOXX or 218-722-7742. Best time to call 8:30 to 5:00 Monday through Saturday. We are closed in the summer on Saturday.
www.usatoxx.com
30 Day Rapid Tanning Services

We normally tan the larger orders first. When you request Rapid Tanning, we will give you TOP PRIORITY — we will tan in small batches 1 to 10 pelts per batch. This is exactly the same premium garment tanning formula as the larger orders and your tanning will be exactly the same. JUST MUCH FASTER. For the younger trappers, we will treat you like a ROCK STAR. For the elder trappers, we will give you the RED CARPET TREATMENT (since you hate rock music!)

It’s Fast or it’s Free!

(Rapid Beaver or Otter Tanning is NOT AVAILABLE. All Rapid tanned orders must be paid within 7 days of your receiving the invoice.)

How do I prepare the hides for Tanning?

a) The following pelts are always case tanned: Bobcat, Coyote, Ermine, Lynx, Marten, Mink, Wolf.

b) Please add $5.00 per pelt if you want any other type pelts CASE tanned & write a note with order form.

c) We have a FLAT FEE of $19.95 for shipping/handling (this applies for any number of pelts 1 to 100.)

d) Pelts must be stretched, dried and salted and dried (fur in or fur out) before shipping to us. Unless we are doing the flossing on your pelts.

e) All Bobcat, Lynx & Otter must have CITIES tag or they will be returned at owners expense.

f) Government regulations require you to have trapping or hunting license # with the order. If you bought the pelts, please get this # from the pelt source.

How will my Beaver pelts be tanned?

1) We offer the finest beaver tanning in the USA. Look no further then USA FOXX for the finest, softest beaver tanning anywhere.

2) Your GARMENT TANNED beaver will be ultra soft and silky with the leg holes in the pelt with scars resewn. It will be ready for manufacturing into a garment, hat or blanket...

3) Your HOOP/TRAPPER tanned beaver will be ready for you to use (sell on eBay, make a Hoop, hang on the wall.)
What about Large Hides? (4 - 6 Month completion time for large hides)

(Add $19.95 if you did NOT take out the skull and you want us to ship back to you.
(Add $75 if you want us to clean, permoxide your skull.)

How do I prepare large hides for tanning?

1) Hides must be fleshed, cleaned and salt dried. If not, we will add the fleshing/drying price to your total. Plus, you run the risk of hair loss on your tanned hide. Only you can prevent hair loss by your proper hide care.

2) Large animals must be fleshed, cleaned & dried. Rolling of folding while still warm or not dry can burn the hair causing it to slip/fall out during the tanning process. Make sure your hides are cooled before folding or rolling.

3) The government requires a hunting, trapping or trapper's license. If you bought the hide ask for their license.

4) What is the best way to handle a hide? It is a lot of work to do it right, but worth it. After fleshing, put it up on a wire mesh, off the ground. It will cool easier and the moisture will "weep" out of it easily. Salt heavy (1/4" thick) with agricultural salt or plain table salt (if your wife does not catch you putting it back in the salt shaker). Let it get tacky (about 4-8 days). Then re-salt any non-salted areas for a few more days, making sure the hide does not get too stiff. Roll it up and put it into a box or plastic shipping container, then send it to us. The plastic storage container may work the best since water, blood or salt will not drip thru. It is OK to leave some salt on the hide; it keeps the hide drier (plus we need some for our wife's salt shakers!!)

Of All the Tanning Problems, the Bulk of them Deal with Bears.
Here are some tips to help.

CARE—Many hunters do not properly care for a bear. Often they are taken in the fall when it is still warm outside and do not have the experience of a trapper or taxidermist in properly skinning & fleshing a hide.

SPEED—The animal must be skinned RIGHT AWAY to prevent slippage. Otherwise you are risking slippage. You must get the body heat out of the Bear FAST. The head needs to be removed right away. Otherwise you are risking slippage in the face and ears. Put Stop Rot™ on your fleshed Bear before freezing. Especially around the ears face and you'll be very happy with your result.

Select One Of These Three Methods For Preparing Your Hide

SALT—Your FLESHED Bear must be heavily salted OFF THE GROUND (a wire mesh works great). For at least 7 days to get the moisture OUT of the hide. Re-salt the wet spots after 3-4 days.

AIR DRY—The bear hide must be fleshed and air dried to stop the spoilage. This will stop the bacteria from destroying the hair. Be sure the ears are either turned or heavily salted to prevent hair loss.

FREEZE—Lay out flat in a freezer for 2-4 hours until the hide gets quite cold, then roll up and let it freeze. This will freeze much faster this way and help prevent hair slippage.
Keeping Your Furs in Style
With proper care fine furs can be maintained for many years, but they do get out-dated. Because of their intrinsic value they are worth keeping in fashion. A coat may be restyled or completely redesigned into an entirely new garment, such as a jacket or stole, with the pattern of your choice and custom made to your measurements. Only an experienced furrier has the skills to determine how you can obtain the most value from your original garment, the experience to do the matching re-cutting, and sewing so that the finished garment will have the appearance of authentic newness. It takes modern specialized equipment to perform all the necessary steps as economically as possible. It takes an adequate supply of extra pelts, to provide additional fur when needed to correctly match the original fur. With complete factory facilities and skilled personnel: USA FOXX & FURS has "what it takes" to obtain superb results in relining and restyling or your furs.

Remodeling
USA FOXX has experienced people to make repairs, alterations & restyling to your fur garments. If your fur happens to "SHRINK" since you wore it last, no problem. We can enlarge it to fit you again. If you need new collar, new cuffs, new liner we can help you.

We have an experienced Staff of skilled fur crafts-people for your peace of mind. Price estimates BEFORE we start, no surprise with USA FOXX. Reasonable prices. Restyle your older fur, don't let it hang in a closet and you'll be proud every time you wear fur. 100% satisfaction guaranteed or your money back.

Accessories - USA FOXX can custom make just about any fur product. We add fur trim to hoods, gloves and boots. We can make a fur scarf or boa for that special occasion. Or fur pillows and even stuffed animals. Give us a call with your creative fur ideas.

Repairs, Alterations & Restyling

Take it in... Let it out... Or add something new.

USA FOXX Furs Storage has the Nation's Best Value in Summer Fur Storage $79

This special price includes: storage in our cool, climate controlled fur vault. Cleaning & Glazing which will keep your fur shiny. Free inspection for small rips, closure & lining problems. Insurance of $1500 while in our care or transit.

**Wendell Shitfler - Alaska**
Wild Mink Russian
7 pelts $80

Sheared Muskrat Russian
(Flaps Down) 7 pelts $80

How long does it normally take to make a hat?
Please allow two months to tan your pelt and 1-2 months to custom make your hat.

Red Fox
MM #5
1 pelt $55

Red Fox Alaskan
3 pelts $80

The differences between the Russian, Trooper & Alaskan:

- The Russian has a FLAT crown (looks best with shorter & mid length furs).
- The Trooper has a ROUNDED crown (looks best for taller men with short or mid length furs).
- The Alaskan has a ROUNDED crown & NO FRONT FLAP (looks best with longer furs).

$80 Russian, Trooper, Cossack or Alaskan. We offer America's BEST SELLING hat at an unbeatable price. We guarantee this to be your finest hat you ever owned. Please remember, unless you are a young stud, this fur hat may outlast you! Standard is all fur fur crown, fur back & flaps inside and out, or if you are short on fur select with leather crown, back & inner ear flaps. Choose a leather bill or wool ear flaps ($10.00 for either) on any hat.

Large 12" x 8"
Medium 11" x 5"
Small 7" x 6"
**Rugs.**

Giraffes, Zebras and Bears! Oh, my!

**Do we make Black Bear Rugs?**

**Yes**, if you want us to install the felt around the bear. Plus we can make the bears ears stand up and face normal (without eyes & the lower jaw). This style is best for hanging on a wall; we will install wall mounts at no extra charge. We charge $4.00 per lineal inch for this work. Just measure the bear from the nose to the base of the tail for the estimated cost. We will balance it out after we are completed. Allow 30 days after tanning to be completed.

**No**, if you want us to install taxidermy styled open mouth on a your Bear. Your taxidermist will install eyes, teeth, solid head mount, guaranteed to scare the little kids! This style is done best by YOUR favorite taxidermist. They are wonderful at this detailed, skilled craft of taxidermy. They make take longer than you want, but the work is usually so wonderful, its worth it. This style of rug is wonderful for a rug on the floor. (don't get any wild ideas)

Tell us what kind of animal you want to make a rug. We will charge $4.00 per lineal inch for the rugs. (For a 5' (60") bear this would be $240.00). We will add two felts around the edges and one in the back. Select any two colors from: Black, Dark Brown, Tan, Red, Green, and White. Please tell us on the order form, "special instructions" (page 23).

We can also make vest, jackets and garments from your tanned African animals. We can either use the hides or use your tanned hides (or the back half of your tanned hide) to mix and match to custom design the garment of your choice. It will be unique and you will love wearing your special design. Just call and tell us what you have to work with and a few ideas of what you want for a garment and we will custom make your garment accordingly.

About My Bed Spread

What type of backing do you use?
We use a color coordinated quilted cotton backing. It will not slip off. (unless you get wild and crazy)

Can I put a fur border around my bedspread?
YES, some of the most attractive bedspreads have borders around them. We provide this service for only $50 additional.

Can I use more then one type of pelt for my bedspread?
YES, often using a different type of fur for the border is outstanding. Plus we often make bedspreads using 2-3 different furs. We like to get creative. We have furs available. I you do NOT have enough.

Can USA FOXX help design my bedspread?
YES, we love this part! We have worked with many types of furs and can do an excellent job for you for no additional cost. If you want an inlay design just add $50 (as in F on page 43).

Can I dye and/or pluck/shear some of my furs?
YES. Some of the best bedspreads have this type of border. Plus the plucked & sheared Beaver is very soft on your face. Muskrat border is another excellent choice.

How long will my bedspread last?
Normally it will last a lifetime. Unless you are really wild, romantic and young, then after many years of trying to wear it out we can replace the worn areas.

Can I get my bed spread cleaned by USA FOXX & FURS?
YES, we can do this for you. Please allow 2 weeks for this process. We will take off (replace if desired) the lining, clean & glaze the fur and then put back together for you. Usually we recommend this about every 5 years or so. We charge $149 for this process.

Can I send USA FOXX the backing I want for my blanket?
YES, just send with your order and we will install you backing for no extra charge.

What is the finest backing possible?
We will install a color coordinated silk backing with 1" cotton padding. It will be the finest and softest possible. It will make your fur blanket look like a comforter. Select only when you want the best. Additional cost.

Super King $195
King $125
Queen $95
Full $75
Twin $65

How will my bedspread be?
We will make the bedspread to the size requested and it will cover the top of a bed. If you do NOT have enough fur to make it this size we will notify you, you have extra fur if needed. If you have extra pelts we will return with the order. If however you want us to use ALL of your fur in your bedspread, to increase the size we will do so. Just tell us with the order to make as large as possible, and we can bill you for the additional size.

Muskrat Super King Bed Spread
A. 144 pelts, 8' x 8', $895

Beaver Queen Bed Spread
B. Color added, 15 pelts, $640

Questions? Call 1-800-USA-FOXX or 218-722-7712. Best time to call is 8:30 to 5:00 Monday through Saturday. We are closed in the summer on Saturday.
