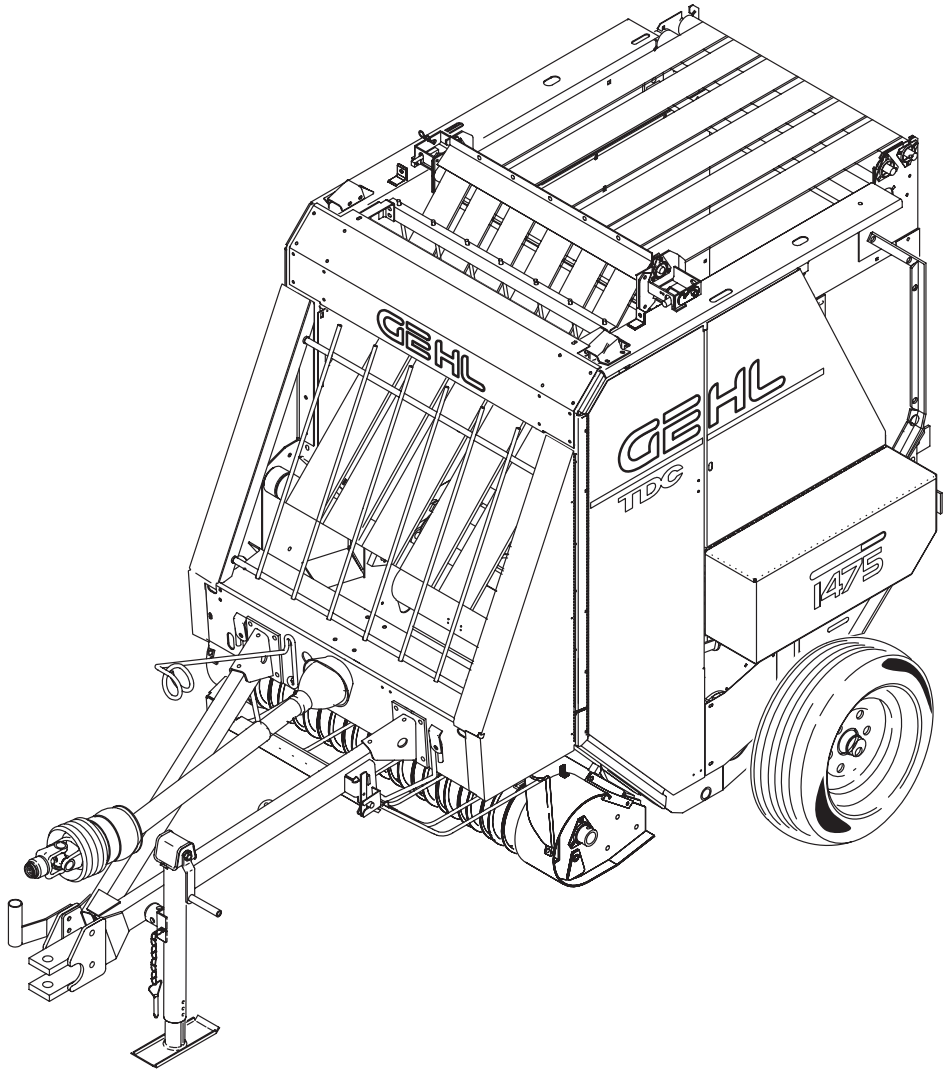
Variable Chamber Round Balers



PARTS MANUAL

GEHL® AGRICULTURE

Introduction

When ordering service parts, specify the correct part number, full description, quantity required, the unit model number and serial number.

The model number and serial number for the Baler is on a decal located under the Top Channel, near the Center Column of the Right Frame Assembly. If equipped with the Quick Wrap, the Quick Wrap model and serial number is on a decal located on the Left Panel Assembly behind the Left Shield Door. “Right’’ and “Left’’ are determined from a position standing at the rear of the unit facing the direction of travel. From this position, the Baler Drive Sprocket on the Transmission Output Shaft is on the left side.

GEHL® Company reserves the right to make changes or improvements in the design or construction of any part of the unit without incurring the obligation to install such changes on any previously delivered units.

NOTE: *On original tire replacement, company policy prohibits the sale of replacement tires for all GEHL machinery. Replacement Wheel Sets are available and tire size information is called out with the Wheel Sets to facilitate replacement tire selection. ALL REPLACEMENT TIRES MUST BE PURCHASED LOCALLY.*

Refer to the abbreviations table located on this page for the various fastener descriptions. Standard attaching hardware torque values are also provided on the inside back cover.

In the exploded view parts list, Reference Numbers may have additional information following the Reference Number.

A Tear Drop symbol will indicate an application of a “wet” product such as oil, and the number inside the Tear Drop will correspond to the description in the Parts List.

Also, a number inside a hexagon will be the torque value required, in foot pounds, on the associated Reference Number. Items shown in the parts list that do not have Reference Numbers are shown for reference purposes only and are NOT available for purchase.

Unless otherwise specified, all Cap Screws or Bolts are Grade 5, cadmium plated; Hexagon Nuts for Grade 5 Screws or Bolts are Grade B; Hexagon Nuts for other Screws or Bolts are Grade A.

NOTE: *The following abbreviations may be used herein:*

A/R	– As Required
ASSD	– Assembled
ASSY	– Assembly
CB	– Carriage Bolt
CCW	– Counterclockwise
CP	– Cotter Pin
CS	– Cap Screw (Hexagon Head)
CTR	– Center
CW	– Clockwise
DEG	– Degree
DIA	– Diameter
FCS	– Flanged Cap Screw
FHMS	– Flat Head Machine Screw
FL	– Flanged
FLN	– Flanged Lock Nut (Hexagon)
FLS	– Flanged Lock Screw (Hexagon)
FW	– Flat Washer
GA	– Gauge
GR	– Grade
HD	– Hard or Head
HN	– Hex Nut
INCL	– Includes
JT	– Joint
LG	– Large
LH	– Left Hand
LW	– Lock Washer
LN	– Lock Nut
LW	– Lock Washer
M	– Metric
MM/mm	– Millimeter
NF	– National Fine
PB	– Plow Bolt
PTO	– Power Take Off
RH	– Right Hand
RHMS	– Round Head Machine Screw
RPM	– Revolutions Per Minute
RT	– Right
SERR	– Serrated
SHCS	– Socket Head Cap Screw
SHSS	– Socket Head Set Screw
SN	– Serial Number or Slotted Nut
SQ	– Square
T	– Tooth or Teeth
TFS	– Thread Forming Screw
THMS	– Truss Head Machine Screw
THRD	– Thread
WLDMT	– Weldment
#	– Number
	– Torque Required in foot pounds
	– Indicates a Fluid Application

DECAL LOCATIONS

GENERAL INFORMATION

Decal locations information is provided to assist in the proper selection and application of new decals, in the event the original decal(s) become(s) damaged or the machine is repainted. Refer to the listing for the photograph or illustration reference number, part number, description and quantity of each decal provided in the kit. Refer to the appropriate photograph(s) or illustration(s) for replacement location(s).

NOTE: *Refer to the SAFETY Chapter of the Operator's Manual for the specific information provided on all of the various safety decals furnished in the decal kit(s).*

To insure proper selection for correct replacement decal(s), compare all of the various close-up location photographs and illustrations to your machine BEFORE starting to refinish the unit. Then, circle each pictured decal (applicable to your machine) while checking off its part number in the listing. After you have verified all the decals needed for replacement, set aside unneeded decals for disposal.

NEW DECAL APPLICATION

Surfaces MUST be free from dirt, dust, grease and other foreign material before applying the new decal. To apply a solid-formed decal, remove the smaller portion of the decal backing paper and apply this part of the exposed adhesive backing to the clean surface while maintaining proper position and alignment. Slowly peel off the other portion of the backing paper while applying hand pressure to smooth out the decal surface.

CAUTION

ALWAYS observe safety precautions shown on decals. If decals become damaged, or if the unit is repainted, replace the decals. If repainting, BE SURE that ALL decals from the kit(s) that apply to your machine are affixed to your unit.

PAINT NOTICE

Use this list to order paint for refinishing:

906315	**One Gal. AG Red**
902872	**One Qt. Light Grey**
906316	**6 (12 oz. Spray Cans) AG Red**
902874	**6 (12 oz. Spray Cans) Light Grey**

For a complete decal set, order Part Number 119614 for the RB1475 model Baler or 119615 for the RB1875 model Baler. The following decals (as required) are included in the sets:

Ref. No.	Part No.	Description & Quantity
1	060147	Operating Instructions
2	060148	General Operating Instructions
3	060151	Shuttle Lock Position (2 Places)
4	060510	Jack Storage Position
5	060511	Jack Lifting Position
6	061832	Belt Tracking Adjustment (2 Places)
7	067131	Patent
8	145216	Red Reflector Strip (2 Places) (After SN26150-1475 & 18800-1875)
	067493	Red Reflector Strip (2 Places) (Before SN26151-1475 & 18801-1875)
9	091444	DANGER - Rotating Drive Line
10	093020	Lubrication Symbol (16 Places)

a) For repair, order the following connector kit numbers:
(Refer to connector locations on previous page)
***A – 119923**
***B – 119924**
***C – 119925 (Blue & Yellow Wires)**
***D – 119927 (Black & Red Wires)**
***E – 119929**

b) To replace complete implement harness, order:
(1) – 119891 - Implement Harness
(1) – 141192 - Receptacle Connector Kit
(1) – 119899 - Power Harness Dust Cap
(1) – 119886 - Connector Bracket
(1) – 650553 - Cotter Pin 1/8X3/4

To replace implement connector end to tractor, order:
(1) – 119922 - Connector Clamp
(1) – 119921 - Connector Clamp Bushing
(1) – 141193 - Plug Connector Kit
(1) – 141192 - Receptacle Connector Kit
(1) – 119900 - Implement Harness Dust Cap
(1) – 119899 - Power Harness Dust Cap
(1) – 119886 - Bracket Connector

To repair Power Connector (black & red wires), order:
(1) – 119927 - Connector Kit

To repair Signal Connector (blue & yellow wires), order:
(1) – 119925 - Connector Kit

c) Not available as a service part. Refer to the included Parts Breakdown.

d) For repair of (Metal) Connector, see page entitled 'Service Kits – Electrical Connectors'.

TORQUE SPECIFICATIONS

NOTE: *Use these torque values when tightening **GEHL** hardware (excluding: Locknuts and Self–tapping, Thread Forming and Sheet Metal Screws) unless specified otherwise.*

All torque values are in Lb-Ft except those marked with an * which are Lb-In
(For metric torque value Nm, multiply Lb-Ft value by 1.355 or Lb-In value by 0.113)
