

## Tim Tremblay On The Podium To Wrap Up 2018 Snocross Season For Scheuring Speed Sports

**Aurora, Minn. (March 19, 2018)** Tim Tremblay opened AMSOIL Championship Snocross grand finale weekend with a third place podium in the Pro class, tallying at least one trip to the box in each of the last four weekends since he's returned from injury in February. Teammate Lincoln Lemieux raced from deep in the field to finish a very respectable fifth on the first of three days of racing.

On Saturday Tremblay came close to a return visit to the box, just missing the last step on the podium with a fourth place finish. Lemieux started in the seventh position and had made his way to sixth before dropping to eighth place at the finish.

Lemieux rebounded for his best day of the weekend on Sunday, finishing fifth and making for a total of six main event finishes inside of the top five for the team. Hunter Patenaude and Francis Pelletier were responsible for two of those finishes, each scoring a fourth place on Sunday in their respective Pro Lite and Sport finals.

It was a challenging but highly rewarding season for the team, bringing an entirely new platform Ski-Doo MXZX 600RS to the national tour. Thanks to the dedication of our crew and riders we were able to make steady progress throughout the year earning at least one podium finish in all but one round of the 17 race season. We were also the only Ski-Doo team to win a Pro main event with the new machine.

Not untypical to our sport, injuries played a critical role in our season. As a result, we fielded the largest team in our history with five healthy riders competing at season's-end, scoring top five overall finishes in the Junior, Sport, Pro Lite and Pro divisions.

2018 was a season in which we enjoyed working even more closely with partners such as AMSOIL, U.S. Air Force, Milwaukee Tool and Ford, taking part in more in-store promos and school visits than ever before. We are pleased to say we have bigger things in the works with our summer UTV program and are already scheduling late spring test sessions for snocross 2019.
