

## **Evolution Ag Announces Addition of Precision Farming Specialist**

Tom Hill, President of Evolution Ag LLC announced the addition of a Precision Farming Specialist to its service and sales team. Jason Farley of Elgin, Ohio has agreed to join the Evolution Ag family and will lead the Precision Farming area. Hill said, "Jason brings excellent experience gained over several years of working with producers and their Trimble and Ag Leader systems." Hill went on to say that Farley has established a reputation for excellent service and building great rapport with his customers. "We are confident that Jason will provide Evolution Ag's customers the service and sales support they need to take full advantage of the technology being used on today's farms." Hill said.

Farley is a graduate of Spencerville High School and Apollo Career Center. His Trimble experience has been with all major farm equipment manufacturers including Case IH, Deere, New Holland, Massey Ferguson, Agco, Caterpillar, Apache, Hagie and Miller.

Farley will be supporting the Case IH Advanced Farming System (AFS) which provides displays, guidance and steering, section and rate control as well as harvest mapping and evaluation. Case IH recently announced the addition of AFS Connect. The system uses a combination of global positioning system and cellular technology to send and receive machine, agronomics and job-site information. The system is designed to help improve productivity with up-to-the-minute management of resources and labor.
