

Questions to ask before selling a SoClean to a customer:

1. What type of CPAP machine do you have?
2. Do you have a heated hose?
3. Is there an electrical connection on the end of your CPAP hose?
4. Do you have to twist your CPAP hose onto your CPAP?
5. Do you use a heated humidifier?

Note: Most customers are confused over the difference between a heated hose and a heated humidifier.
