WHY GREENWORKS COMMERCIAL?

When you make a living with your tools, you demand tools you can rely on, day after day. Tools that deliver the power and performance you need.

Since 2002, Greenworks has been manufacturing rugged, powerful, professional-grade tools. With superior brushless motor technology and advanced lithium-ion battery power, our tools stand up to the toughest jobs, every single day.

While other brands were just dipping their toes in new, environmentally friendly technologies, Greenworks Commercial was busy trailblazing. We like to think we set the standard for pro-grade, battery-powered outdoor power equipment. In fact, we're the ONLY brand entirely focused on the design and manufacturing of battery-powered products.

Greenworks Commercial is also the ONLY brand with a full line of professional-grade, 100% battery-powered outdoor power equipment including blowers, chainsaws, string trimmers, hedge trimmers, pole saws, edgers, zero-turn mowers, lawn mowers, snow throwers, tillers, winches, and utility vehicles.

Our entire product line provides the power, performance, and runtime typical of gas-powered equipment, without the noise, hassle, or harmful emissions.

Commercial-grade power and performance with advanced battery technology. That's the Greenworks Commercial advantage!

WHAT'S THIS BATTERY THING ALL ABOUT?

At Greenworks, we think it's quite simple: outdoor power equipment powered by batteries instead of gas is a more environmentally conscious choice.

We've been manufacturing rugged, powerful, professional-grade tools for nearly 20 years, and we know commercial users demand powerful products that perform day after day. Our entire line of products provides the power, performance, and runtime typical of gas-powered equipment, without the noise, hassle, or harmful emissions. With superior brushless motor technology and advanced lithium-ion battery power, users can count on our tools for reliable power that stands up to the toughest jobs, every single day.

The market is changing every day, and battery-powered products are becoming more and more commonplace. We're proud of being ahead of the curve.

POWERFUL PERFORMANCE AND EXTREME RUNTIMES

Battery technology has come a long way, and our 82-volt lithium-ion batteries provide all the power, performance, and runtime typical of yesterday's gas-powered tools – without harmful emissions.

QUIET.

It's simple. Battery-powered tools are super quiet – up to 50% quieter than gas-powered tools. That means professional users can get to work early, even in environments with rigid noise restrictions.

COMPACT, LIGHTWEIGHT, AND EASY TO OPERATE

Engineered with ergonomic design and less weight, Greenworks Commercial battery-powered tools are comfortable to operate. They start with a simple push of a button or squeeze of a trigger, with no aggravating pull cords. Plus, brushless motor technology drastically reduces vibrations, and with fewer motor components, our tools are not only lighter and more compact, they're less tiring to operate, resulting in reduced user fatigue and a much easier work week.

NO GAS. NO OIL. NO MIXING. NO FUMES. NO EMISSIONS.

Our entire line of battery-powered tools has all the power, performance, and runtime typical of gas-powered tools, without the noise, hassle, or harmful emissions. No fluctuating fuel costs. No mixing oil and fuel. No spills, fumes, or mess.

NO HASSLES. NO WORRIES.

Say goodbye to pull-cords. All Greenworks Commercial products start with a simple push of a button or squeeze of a trigger, and freshly charged batteries are always ready to work. There's no need to buy and store fuel, and no mixing or mess. Plus, breathe easy with emission-free battery-powered tools.

LOW MAINTENANCE

Greenworks Commercial equipment requires less maintenance than traditional gas-powered equipment. There are no carburetors to service, no spark plugs or fuel lines to replace, no oil to change, and no air filters to clean. Battery-powered tools are always ready for the job, which means no downtime for users.

MAJOR COST SAVINGS AND RAPID RETURN ON INVESTMENT

There's always a cost to acquiring a new tool, but Greenworks Commercial equipment is a great investment that quickly pays for itself. Battery-powered equipment will save your business big bucks in fuel costs alone. Plus, fuel costs are constantly fluctuating, making it a serious hassle to budget for your business operating costs. With no fuel to purchase, battery products offer savings every day. Our brushless motors have fewer moving parts, a long lifecycle, and require virtually no maintenance, providing added cost savings. And finally, our batteries last – they retain power capacity even after 500 charges. And our multi-function batteries and chargers work with multiple tools, saving on overall battery costs.

RECYCLABLE BATTERIES

Our batteries have an exceptionally long life cycle. But, if you aren't already convinced that Greenworks Commercial tools are environmentally friendly, it's worth noting that once our batteries do reach the end of their life cycle, they're recyclable!

2020 EARTH DAY 50TH ANNIVERSARY PROUD PARTNER

At Greenworks, we have taken on a mindset that EVERY DAY is Earth Day.

AROUND THE WORLD

A *GREEN* STORY

As an environmentally conscious company, we're passionate about having a positive impact on our planet. It starts with making eco-friendly products that are purposefully designed for the lowest environmental impact imaginable — our battery-powered products are emission-free, effectively reducing the carbon footprint. But to be a *true* steward of the planet, we know we can't stop with designing and manufacturing earth-friendly products. It's important that we always consider how everything we do might impact the environment, and we're committed to sustainable product development and manufacturing processes that limit negative impacts on the planet. As a manufacturer, we work hard every day to optimize our manufacturing, logistics, and supply chain efficiencies, all while limiting waste. And it doesn't stop there — even our packaging is environmentally friendly!

While even the smallest of positive gestures can have a big impact on the environment, Greenworks Commercial works hard to make the world a better place to live, and our users have peace-of-mind knowing they're not negatively impacting the planet when they use our tools. Going green isn't just a passing fad for us. It's who we are.

2002
Established in Tianan District, Changzou City

2007
Launched First Lithium-Ion Battery-Powered String Trimmer in North America

2011
Introduction of the 1st 40-Volt Lawn Mower

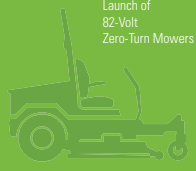

2014
Introduced 80-Volt Line of Products

2016
Introduced 60-Volt Line of Products

Greenworks Produced 80% of all Lithium-Ion Battery-Powered Outdoor Power Equipment

2017
Launch of 82-Volt Zero-Turn Mowers

2018
Launch of 82-Volt UTVs

2019
Launch of 82-Volt 2.5Kw Chainsaw

SUPERIOR BRUSHLESS TECHNOLOGY

Greenworks Commercial knows reliability, longevity, and comfort are important in a professional tool, especially when used in tough outdoor environments day after day. That's why the entire line of Greenworks Commercial tools is powered by advanced brushless motor technology. Brushless motors deliver major torque and power to get the job done, and require virtually no maintenance. They have fewer engine components and moving parts, with drastically reduced friction and wear on the motor components, effectively extending the life of the motor.

Brushless motor technology with battery-powered tools provides extended runtimes, with less battery consumption and a longer overall battery life cycle. Brushless motors weigh significantly less than gas-powered engines, and fewer moving parts means less motor vibration, resulting in minimized operator fatigue on the job.

COMMERCIAL-GRADE POWER

WITH ADVANCED BATTERY TECHNOLOGY

Greenworks Commercial boasts nearly 20 years of design and manufacturing expertise, with a robust line of rugged, powerful, professional-grade tools. Our Greenworks Commercial 82-volt battery-powered line of products are the most powerful professional-grade tools on the market. With superior brushless motor technology and advanced lithium-ion battery power, our tools stand up to the toughest jobs, day in and day out. We know the professionals who use our tools demand exceptional power and performance, as well as advanced battery technology that gets the job done without compromise, and we strive every day to produce tools that exceed the needs of our professional users.

COMMERCIAL-GRADE POWER

- Pro-grade power, performance, and runtime typical of gas-powered equipment.
- Brushless motor technology delivers major torque and power with virtually no maintenance.
- Advanced lithium-ion battery power provides extended run-times and longer battery life.

USER-FRIENDLY FEATURES

- Starts with a simple push of a button or squeeze of a trigger, with no aggravating pull cords.
- Instant starts and restarts in hot or cold weather.
- Engineered with ergonomic design and less weight for comfort and less fatigue.
- No harmful emissions.
- No mixing or storing oil or fuel, with no spills or mess.
- Low maintenance, with no carburetor to service, no spark plugs or fuel lines to replace, no oil to change, and no air filters to clean.

ENVIRONMENTAL RESPONSE

- Zero emissions and zero exhaust.
- Super quiet for reduced noise pollution, especially in environments with rigid noise restrictions.
- Recyclable batteries.

COST-EFFECTIVE

- No fuel needed, which equals big savings in annual operating costs.
- Virtually no maintenance, with no carburetor to service, no spark plugs or fuel lines to replace, no oil to change, and no air filters to clean.
- Brushless motor technology delivers long run-times, long motor life, and less maintenance for major cost savings.
- Multi-function, interchangeable batteries work with multiple tools, saving on overall battery costs.
- Long battery life means low replacement costs.

AVERAGE BATTERY LIFE CYCLE

500 CHARGES

- Even after 500 charges, the battery retains more than 70% capacity.

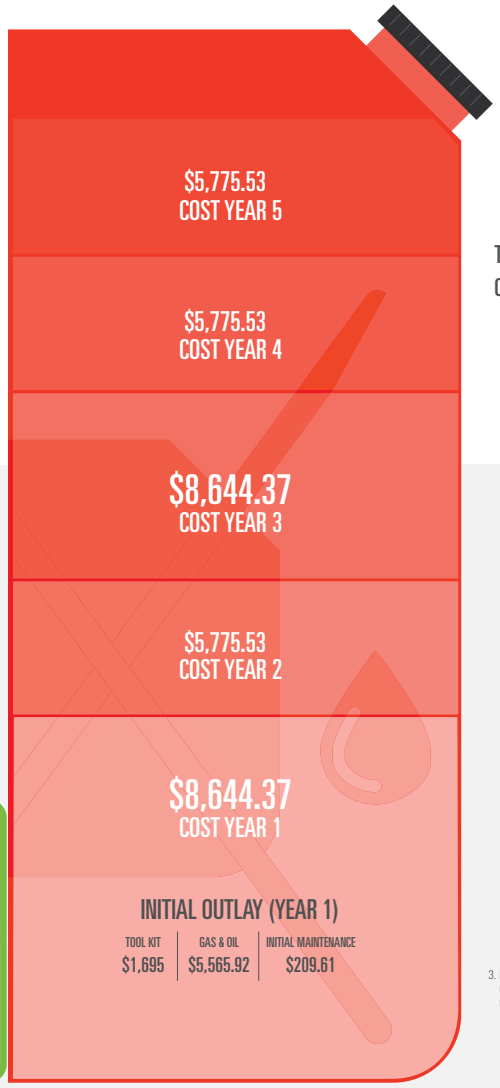

SAVINGS
GAME ON GAS

As the market changes every day, and battery-powered products become more and more commonplace, battery-powered equipment will save your business big bucks in fuel costs alone. Plus, fuel costs are constantly fluctuating, making it a serious hassle to budget for your business' operating costs. Our entire product line provides the power, performance, and runtime typical of gas-powered equipment, without the added costs of gas. That's big savings in annual operating costs. But daily savings don't end with fuel alone. Since battery-powered equipment has no carburetors to service, no spark plugs or fuel lines to replace, no oil to change, and no air filters to clean, your business will save hundreds each year on overall costs.

1. Cost estimates are based on manufacturer's 2019 suggested retail price of GWC and gas-equivalent products, and purchasing in year one and year three.
2. Charging electricity costs based on national average and daily charging.
3. Fuel and servicing costs based on national and monthly maintenance recommendations, 2019 gas average, published retails for oil, spark plug, and other service parts as needed.

"They created a rechargeable world."

The 2019 Nobel Prize in Chemistry was awarded to John Goodenough, M. Stanley Whittingham, and Akira Yoshino for the development of Lithium-Ion batteries.

LITHIUM-ION TECHNOLOGY

POWER THAT LASTS.

CHARGERS

Designed to run long and charge fast, Greenworks and Greenworks Commercial Lithium-Ion batteries and chargers ensure your tools are ready to work when you are. Plus, one battery fits a variety of tools, and chargers power multiple battery sizes and types.

GL900 82-VOLT BACKPACK BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	12.5
Capacity (Wh)	900
Peak Power (kW)	3.2 kW
Bluetooth	No
Weight	23.8 lbs.
Charge Time	3 hours

The GL900 12.5Ah Lithium-Ion battery delivers hours of runtime for extended use, and is equipped with an on-board battery charge indicator.

The GL900 backpack battery has five (5) times the capacity of a 2.5Ah battery, enabling users to work longer on a single charge. The GC900 Backpack Battery Charger works with the GL900, and delivers a full charge in three (3) hours.

GC900 82-VOLT BACKPACK BATTERY CHARGER

TECHNICAL DETAILS

Voltage	82V
Charge Time	3 hours
Amps	4

GC400 82-VOLT RAPID CHARGER

TECHNICAL DETAILS

Voltage	82V
Slots	1
Amps	4
Charge Time : GL 250 (minutes)	36
Charge Time : GLW 300 (minutes)	45
Charge Time : GL 400 (minutes)	60
Charge Time : GL 500 (minutes)	72
Charge Time : GLW 600 (minutes)	90
LED Light Indicator	Yes
Wall Mountable	Yes

Compatible with Greenworks 82V Lithium-Ion battery packs, the GC400 rapid charger can charge a GL250 in just over 30 minutes. It has a built-in fan that sustains battery temperature, extending the life of the battery. Includes LED light indicator that communicates charge status.

GC420 DUAL-PORT RAPID CHARGER

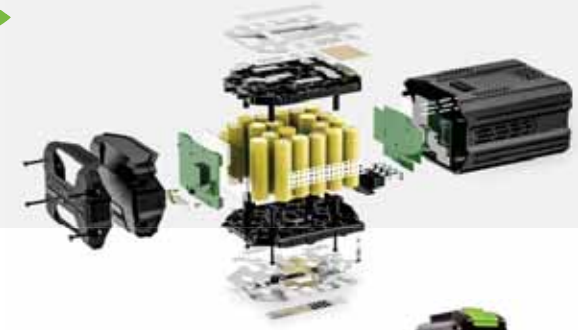

TECHNICAL DETAILS

Voltage	82V
Slots	2
Amps	4
Charge Time : GL 250 (minutes)	36
Charge Time : GLW 300 (minutes)	45
Charge Time : GL 400 (minutes)	60
Charge Time : GL 500 (minutes)	72
Charge Time : GLW 600 (minutes)	90
LED Light Indicator	Yes
Weight	4.4 lbs.

Compatible with the Greenworks 82V Lithium-Ion battery packs, the GC420 rapid charger can charge two (2) GL250s in just over one (1) hour. Its built-in fan sustains temperature of battery, extending the life of the battery. The LED light indicator communicates charge status.

BATTERIES

48B4AH 48-VOLT/24-VOLT DUAL VOLT BATTERY PACK

TECHNICAL DETAILS

Voltage	48V
Rated Capacity (Ah)	4
Capacity (Wh)	172
Bluetooth	Yes

The Greenworks 48/24V 4Ah battery works with all 48V/24V tools, and is optimized to provide extreme power with the Commercial 48V Top Handle Saw and 26" Hedge Trimmer. With an on-board LED indicator, you can check your charge in real time, as well as track battery performance to maximize use. With a smart battery, it also operates the full assortment of Greenworks 48/24 dual volt outdoor power and hand tools.

GL250 82-VOLT 2.5AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	2.5
Capacity (Wh)	180
Peak Power (kW)	2
Bluetooth	No
IPX4 (Water Resistant)	No
Weight	3.3 lbs.
Charge Time	36 minutes

The Powerful 82V 2.5Ah Lithium-Ion battery provides a lightweight solution for handheld applications. With an on-board LED indicator, you can check your charge in real time.

GL400BT 82-VOLT 4AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	4
Capacity (Wh)	288
Bluetooth	Yes
IPX4 (Water Resistant)	Yes
Weight	4.3 lbs.
Charge Time	60 minutes

The Powerful 82V 4Ah high performance battery is equipped with high-energy density cells for increased performance and extended runtimes. The battery is Bluetooth capable, so users can register and track battery performance to maximize use. With an on-board LED indicator, you can check your charge in real time.

GLW300 82-VOLT 3AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	3
Capacity (Wh)	216
Peak Power (kW)	2.4
Bluetooth	Yes
IPX4 (Water Resistant)	Yes
Weight	4.4 lbs.
Charge Time	45 minutes
Aluminum Heat Sync	Yes

The battery is Bluetooth capable, so users can register and track battery performance to maximize use. With an on-board LED indicator, charge can be checked in real time.

GL500 82-VOLT 5AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	5
Capacity (Wh)	360
Peak Power (kW)	2.8
Bluetooth	No
IPX4 (Water Resistant)	No
Weight	5.73 lbs.
Charge Time	72 minutes

The Powerful 82V 5Ah Lithium-Ion Battery provides extended runtimes and performance to maximize tool use. With an on-board LED indicator, you can check your charge in real time.

GL400 82-VOLT 4AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	4
Capacity (Wh)	288
Bluetooth	No
IPX4 (Water Resistant)	No
Weight	5.73 lbs.
Charge Time	60 minutes

The Powerful 82V 4Ah Lithium-Ion Battery provides extended runtimes and performance to maximize tool use. With an on-board LED indicator, you can check your charge in real time.

GLW600 82-VOLT 6AH BATTERY

TECHNICAL DETAILS

Voltage	82V
Rated Capacity (Ah)	6
Capacity (Wh)	432
Peak Power (kW)	3.2
Bluetooth	Yes
IPX4 (Water Resistant)	Yes
Weight	7.4 lbs.
Charge Time	90 minutes
Aluminum Heat Sync	Yes

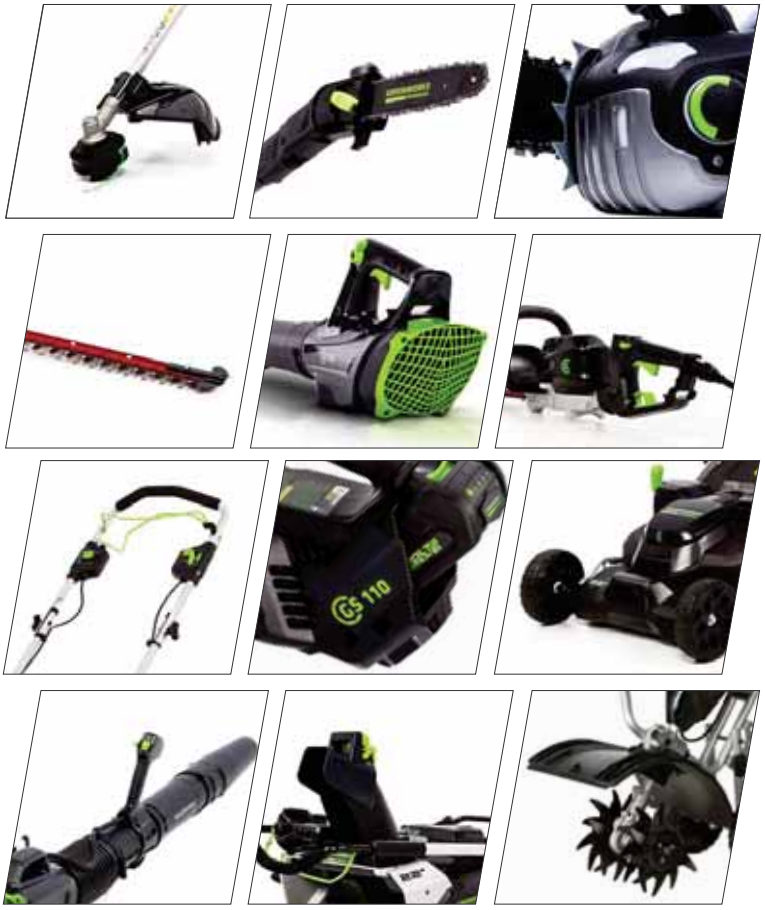

The Powerful 82v 6Ah Lithium-Ion battery provides extended run-times and performance to maximize tool use. It's equipped with an integrated aluminum heat sink that keeps the battery cool and provides water resistance. The battery is Bluetooth capable, so users can register and track battery performance to maximize use. With an on-board LED indicator, charge can be checked in real time.

Since 2002, Greenworks Commercial has been manufacturing rugged, powerful, professional-grade tools. We offer a full line of commercial-grade, battery-powered outdoor power equipment including blowers, chainsaws, string trimmers, hedge trimmers, pole saws, edgers, zero-turn mowers, lawn mowers, and more.

Our entire product line provides the power, performance, and runtime typical of gas-powered equipment, without the noise, hassle, or harmful emissions. With superior brushless motor technology and advanced lithium-ion battery power, our tools stand up to the toughest jobs, every single day.

We know professional users make a living with tools, and demand equipment they can rely on, day after day. Tools that deliver the exceptional power and performance necessary to get the job done with no compromise.

That's Greenworks Commercial.

STRING TRIMMERS & EDGERS

16-INCH STRING TRIMMER

The GT161 82v 16" string trimmer has a brushless motor, and is attachment capable for versatility, making it a perfect tool for all landscapers. It works with Greenworks Commercial and/or compatible universal attachments so users can quickly move from trimming to other tasks. Available attachments include a Hedge Trimmer, Pole Saw, Edger, and Cultivator (sold separately).

16" CUTTING PATH

GT161

TECHNICAL DETAILS

Voltage (volts)	82V
Motor	Brushless
Runtime	Up to 40 min.
Handle	Loop
Shaft Type	Attachment Capable
Cutting Width (in.)	16"
Dual Line System	Yes
Line Feeding System	Bump
Line Diameter	0.095"
Trigger	Variable Speed
Weight (without battery)	9.47 lbs.
RPM	6,300
Warranty	2 Years Product; 2 Years Battery
Replacement Battery Number	GL-250
Replacement Charger Number	GC-400 / GC-420

82 VOLT LITHIUM

ATTACHMENT CAPABLE
Optional attachments provide convenience and versatility, and quickly transform string trimmer to a hedge trimmer, pole saw, edger, and more.

BUMP-FEED TRIMMER HEAD
Trimmer line automatically feeds and extends quickly by simply tapping trimmer head on ground.

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended run-time, and long life.

RUN-TIME
Advanced battery technology provides reliable power and long run-times (up to 40 min. with 2.5Ah battery).

16-INCH BRUSHLESS STRING TRIMMER

The GT160 82v 16" string trimmer is always ready for the job. It's built to last with a brushless motor, sealed motor head, and solid shaft for added durability. It features a bump-feed trimmer head for quick trimmer line advancement, and is equipped with .095" easy-feed trimmer line that's ideal for dense brush.

Variable speed trigger provides added control when you need it.

RUNTIME

Advanced electronic control optimizes battery performance both in tool and on charger. Up to 45 min. with 2.5Ah battery

GE080

TECHNICAL DETAILS

Voltage (volts)	82V
Motor	Brushless
Handle	Loop
Shaft Type	Solid / Permanent
Trigger	Variable Speed
Weight (without battery)	10.36 lbs.
RPM	7,000
Cast Blade Guard	Yes
Warranty	2 Years Product; 2 Years Battery
Replacement Battery Number	GL-250
Replacement Charger Number	GC-400 / GC-420

8-INCH BRUSHLESS STICK EDGER

The 82E8 82v Edger features an 8" heat-treated blade that's driven by a direct-drive brushless motor for incredible torque, with zero maintenance required. It's equipped with a cast aluminum blade guard for added safety and durability, and features a hassle-free "instant-on" start button and variable speed trigger for added control.

8" BLADE

8" heat-treated blade easily cuts through grass.

CAST ALUMINUM BLADE GUARD

Durable cast aluminum blade guard provides added safety and peace-of-mind.

VARIABLE SPEED

Variable speed trigger provides added control when you need it.

RUNTIME

Advanced electronic control optimizes battery performance both in tool and on charger. Up to 45 min. with 2.5Ah battery

82E8

TECHNICAL DETAILS

Voltage (volts)	82V
Motor	Brushless
Handle	Loop
Shaft Type	Solid / Permanent
Trigger	Variable Speed
Weight (without battery)	11.88 lbs.
RPM	7,000
Cast Blade Guard	Yes
Warranty	2 Year Product / 2 Year Battery

Replacement Charger Number	GC-400 / GC-420

BLOWERS

690 BRUSHLESS DUAL PORT BACKPACK BLOWER

The GBB700 82v Backpack Blower delivers an incredible 160 MPH maximum air speed and 690 CFM maximum air volume. It's equipped with a turbo button, trigger-activated variable speed control, and cruise control. Dual 5Ah batteries with automatic switch-over provide longer run-times, and it features a plug-in power source for our 82v family of tools, making it one of our most versatile tools.

690 CFM/
160 MPH

GBB700

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Max. Air Speed (MPH)	160
Max. Air Volume (CFM)	690
Blowing Force at Tip (Newton)	22.75N
Trigger	Variable Speed
Cruise Control	Yes
Turbo Function	Yes
Weight without Battery (lbs.)	15.87
Replacement Battery Number	GL-500
Replacement Charger Number	GC-400 / GC-420

RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 65 min. with two (2) 5Ah batteries).

VARIABLE SPEED CONTROL
Variable speed trigger with cruise control provides added control when it's needed.

DUAL BATTERY CAPABLE
Holds two batteries, with automatic switch-over for extended run-times.

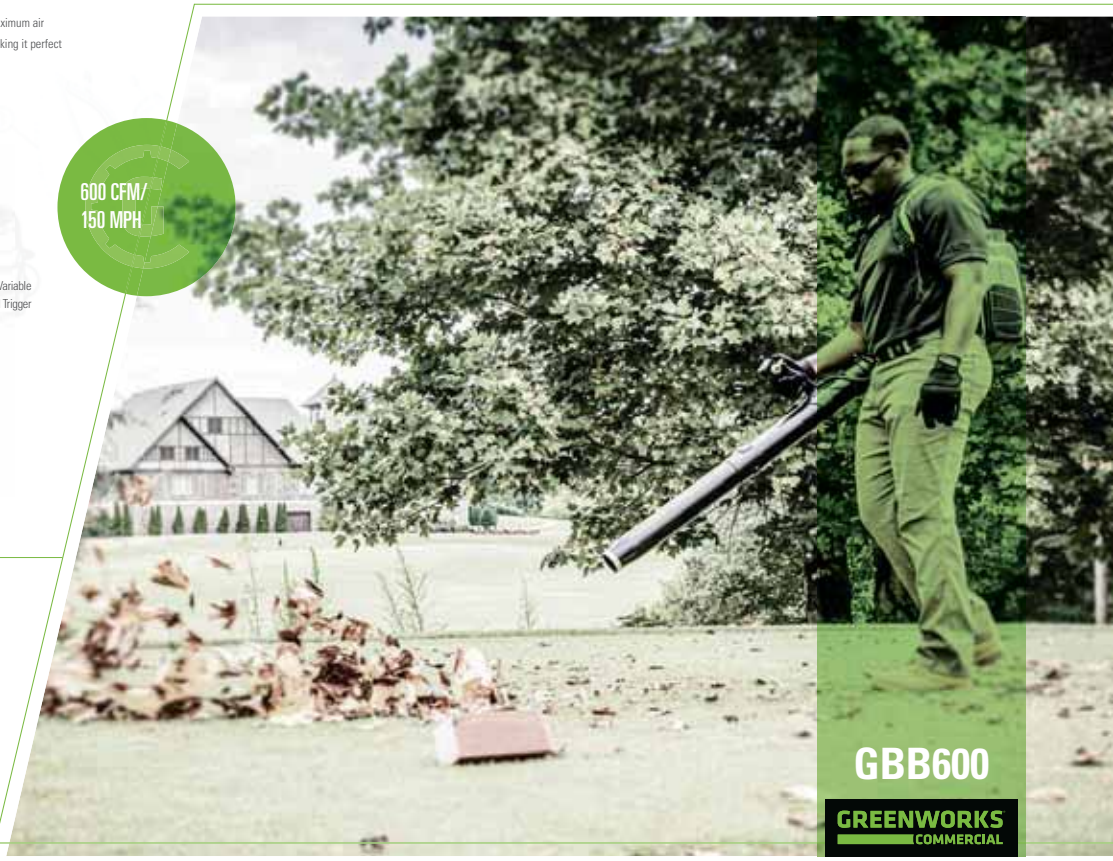

BLOWING FORCE
Backpack Jet Blower design delivers 690 CFM/160 MPH for gas-like performance, without the hassle.

600 CFM BRUSHLESS BACKPACK BLOWER

The GBB600 82V Backpack Blower delivers an impressive 150 MPH maximum air speed and 600 CFM maximum air volume. It's equipped with a turbo button, trigger-activated variable speed control, and cruise control, making it perfect for more demanding jobs and larger areas such as parking lots, sports facilities, and municipalities.

600 CFM/ 150 MPH

GBB600

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Blower Type	Backpack
Max. Air Speed (MPH)	150
Max. Air Volume (CFM)	600
Blowing Force at Tip (Newton)	15.8N
Trigger	Variable Speed
Cruise Control	Yes
Turbo Function	Yes
Weight without Battery (lbs.)	8.27
Replacement Battery Number	GL-500
Replacement Charger Number	GC-400 / GC-420

82 VOLT LITHIUM-ION

BLOWING FORCE
Backpack Jet Blower delivers 150 MPH/600 CFM that's perfect for longer jobs and bigger areas.

DESIGNED FOR COMFORT
Lightweight motor and fan combination provide less user fatigue.

VARIABLE SPEED CONTROL
Variable speed trigger with cruise control provides added control when it's needed.

RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 45 min. with 5Ah battery).

600 CFM BRUSHLESS BLOWER

The GB600 Blower delivers 160 MPH maximum air speed and 600 CFM maximum air volume. It's equipped with a turbo button, trigger-activated variable speed control, and cruise control, making it perfect for all those finishing touches, like clearing pesky leaves, dirt, and much more!

600 CFM/
160 MPH

GB600

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Max. Air Speed (MPH)	150
Max. Air Volume (CFM)	600
Blowing Force at Tip (Newton)	16N
Trigger	Variable Speed
Cruise Control	Yes
Turbo Function	No
Weight without Battery (lbs.)	4.63
Replacement Battery Number	GL-900 / AWP-100 (with any battery)
Replacement Charger Number	GC-400 / GC-420

RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 150 min. with GL900 12.5Ah battery / battery sold separately.

BACKPACK/ HARNESS COMPATIBLE
Works with all Greenworks backpack battery solutions.

VARIABLE SPEED CONTROL
Variable speed trigger with cruise control provides added control when it's needed.

BLOWING FORCE
600 CFM/150MPH that quickly removes leaves, grass cuttings and other debris.

82 VOLT LITHIUM

500 CFM BRUSHLESS JET BLOWER

With 125 MPH maximum air speed and 500 CFM maximum air volume, the GB500 Blower is perfect for removing leaves, grass cuttings, hedge clippings, sand, dirt, and rubbish from smaller areas. It's also equipped with trigger-activated variable speed control.

GB500

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Blower Type	Handheld
Max. Air Speed (MPH)	125
Max. Air Volume (CFM)	500
Blowing Force at Tip (Newton)	12N

HEDGE TRIMMERS

26-INCH HEDGE TRIMMER

The GH260 82v Hedge Trimmer starts with a simple pull of the trigger, and features a magnesium gear box for extreme durability; anti-jam technology; dual-action, laser-cut blades for cleaner cuts; and rotating rear handle for trimming at multiple angles. It's powerful and easy to maneuver, and is excellent for both controlled sculpting and general hedge trimming.

DUAL-ACTION BLADES

GH260

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Trigger	Yes
Weight (without battery)	9.35 lbs.
Blade Length	26"
Length	44.48"
Cutting Thickness	3/4"
Impact Guard	Yes
Rotating Rear Handle	Yes
Anti-jam Function	Yes
Cutting Speed	3,000 cuts/min.
Pivot Angle	5
Manufacturer's Warranty	2 Years Product / 2 Years Battery
Replacement Battery Number	GL-250
Replacement Charger Number	GC-400 / GC-420

ANTI-JAM FUNCTION
Allows user to reverse the blades to release when they're stuck in debris.

LASER-CUT BLADES
Dual-action, laser-cut blades provide a consistent, precise, clean cut from every cutting angle.

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended runtime, and long life.

ROTATING HANDLE
Handle rotates to easily cut at any angle with minimal shift in user's cutting stance.

82 VOLT LITHIUM-ION

26-INCH DEDICATED BRUSHLESS HEDGE TRIMMER

The GHD260 82v Hedge Trimmer is lightweight and powerful, providing up to 3,000 cuts per minute. It features a plug-in waist/backpack battery design for added comfort and less fatigue. It starts with a simple pull of the trigger, and features anti-jam technology, 26" dual-action, laser-cut blades for cleaner cuts, and rotating rear handle for trimming at multiple angles.

DUAL-ACTION BLADES

GHD260

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Trigger	Yes
Weight (without battery)	7.71 lbs.
Blade Length	26"
Length	45.27"
Cutting Thickness	3/4"
Impact Guard	Yes
Rotating Rear Handle	Yes
Anti-jam Function	Yes
Cutting Speed	3,000 cuts/min.
Pivot Angle	5
Manufacturer's Warranty	2 Years Product / 2 Years Battery
Replacement Battery Number	GL-900 / AWP-100 w/any battery
Replacement Charger Number	GC-400 / GC-420 / GC-900

LASER-CUT BLADES
Dual-action, laser-cut blades provide a consistent, precise, clean cut from every cutting angle.

OPTIONAL BACKPACK BATTERY
Plug-in waist/backpack battery provides a comfortable, convenient backpack battery solution and longer runtime (GL-900 backpack battery sold separately).

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended runtime, and long life.

ROTATING HANDLE
Handle rotates to easily cut at any angle with minimal shift in user's cutting stance.

82 VOLT LITHIUM

26-INCH HEDGE TRIMMER

The 48HT26 48V Hedge Trimmer is lightweight and powerful, providing up to 4,000 cuts per minute. It starts with a simple pull of the trigger, and features 26" dual-action, laser-cut blades for cleaner cuts, rotating rear handle for trimming at multiple angles, and blade tip guard that protects blades from damage.

DUAL-ACTION BLADES

48HT26

TECHNICAL DETAILS

Voltage	48V
Motor	Brushless
Trigger	Yes
Weight (without battery)	8.8 lbs.
Blade Length	26"
Cutting Thickness	1.2"
Impact Guard	Yes
Rotating Rear Handle	Yes
Anti-jam Function	No
Cutting Speed	4,000 cuts/min.
Manufacturer's Warranty	2 Years Product / 2 Years Battery
Replacement Battery Number	48B4Ah
Replacement Charger Number	CAM-803

DUAL-VOLT BATTERY TECHNOLOGY
4Ah battery and charger included with tool.

LASER-CUT BLADES
Dual-action, laser-cut blades provide a consistent, precise, clean cut from every cutting angle.

BLADE TIP GUARD
Protects blades from damage so they'll stay sharp longer.

3-POSITION ROTATING HANDLE
Handle rotates to easily cut at most angles, with minimal shift in user's cutting stance.

CHAINSAWS

18-INCH BRUSHLESS CHAINSAW

With an 18" bar and chain, the GS181 Chainsaw powers through every job, from routine maintenance to felling trees. The brushless motor provides high torque, zero-maintenance, and zero-exhaust — all while decreasing vibrations and noise levels. This tough, powerful and lightweight chainsaw is ideal for cutting firewood, trimming and felling trees, or doing forestry work.

18" BAR & CHAIN

GS181

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Chain Speed (feet)	67.2ft./s
Bar Length (in.)	18"
Power	2.5kw
Chain Brake	Yes
Automatic Chain Oiler	Yes
Chain Pitch (in.)	.325"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	200ml
Weight (without battery) (lbs.)	11.2
Replacement Battery Number	GL-250 / GL-400 / GL-500/GL 400BT
Replacement Charger Number	GC-400 / GC-420

BATTERY
82V battery and rapid charger included. Advanced electronic control optimizes battery performance in both tool and charger.

AUTO-OILER
Automatic chain oiler applies oil to bar and chain when needed. Also features translucent oil tank for clear view of oil level.

STEEL BUCKING SPIKES
Features steel bucking spikes that provide leverage for easier, more controlled cutting.

50CC GAS EQUIVALENT
Provides the expected power and torque of a 50cc gas-powered engine, with more reliable starts, efficiency, and lower cost to operate.

82 VOLT LITHIUM-ION

18-INCH BRUSHLESS CHAINSAW

With an 82V battery and 18" bar and chain, the GS180 Chainsaw powers through professional jobs from routine maintenance to felling trees. It's built to last, with an advanced brushless motor that provides incredible torque, extended runtime, and long life, and has plenty of power for outstanding cutting performance in the toughest conditions. The electric start makes it not only easy, but safe, to turn on and off while working in a tree. It features an automatic chain oiler, steel bucking spikes, and full metal wrap around handle for added durability. This tough, powerful, and lightweight chainsaw is ideal for cutting firewood, trimming and felling trees, or doing forestry work.

GS180

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Chain Speed (feet)	33.6ft./s
Bar Length (in.)	18"
Power	1.5kw
Chain Brake	Yes
Automatic Chain Oiler	Yes
Chain Pitch (in.)	3/8"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	200ml
Weight (without battery) (lbs.)	11.24
Replacement Battery Number	GL-250
Replacement Charger Number	GC-400 / GC-420
Replacement Guide Bar	2904102 Bar/Chain Combo
Replacement Chain	2904202

STEEL BUCKING SPIKES
Features steel bucking spikes that provide leverage for easier, more controlled cutting.

BATTERY & CHARGER INCLUDED
82V battery and rapid charger included. Advanced electronic control optimizes battery performance in both tool and charger.

AUTOMATIC OILER
Automatic chain oiler applies oil to bar and chain when needed. Also features translucent oil tank for clear view of oil level.

FULL METAL WRAP AROUND HANDLE
Full metal wrap around handle provides long-lasting durability and rigidity for commercial-grade performance.

82 VOLTS LITHIUM-ION

12-INCH TOP HANDLE CHAINSAW

Described by arborist experts as a "game changer," the Greenworks 48TH12 comes standard with a 12" bar and chain (optional 10" or 14" also available). Weighing under 8 lbs. (without battery), this chainsaw is lightweight, yet delivers high torque and power needed to quickly and safely navigate a tree canopy and manage cuts without having to leave the tree. It features a mechanical chain brake, shark fin lock-out design, steel bucking spikes, and automatic chain oiler.

48TH12

TECHNICAL DETAILS

Voltage	48V
Motor	Brushless
Chain Speed (feet)	64ft./s
Bar Length (in.)	12"
Power	2kw
Chain Brake	Yes
Automatic Chain Oiler	Yes
Chain Pitch (in.)	3/8"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	150 ml
Weight (without battery) (lbs.)	7.5
Replacement Battery Number	48B4AH
Replacement Charger Number	CAM-803

BATTERY & CHARGER INCLUDED
48V 4Ah battery and rapid charger included.

12" BAR AND CHAIN
Designed for quality performance and exceptional runtimes, 12" bar and chain is standard. Optional 10" and 14" bar available.

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended runtime, and long life.

POWERFUL
Starts easily and provides the power of gas with the convenience of cordless.

10-INCH TOP HANDLE CHAINSAW

The GS110 40V Chainsaw is designed to work hard. Lightweight, maneuverable, and powerful, it's perfect for pruning, trimming, and shaping in high places. The electric start makes it not only easy, but safe, to turn on and off while working in a tree. It features a 10" bar and chain, automatic chain oiler, and integrated D-ring for simple tethering.

10" BAR & CHAIN

GS110

TECHNICAL DETAILS

Voltage	40V
Motor	Brushless
Chain Speed (feet)	38.4 ft./s
Bar Length (in.)	10"
Power	1kw
Chain Brake	Yes
Automatic Chain Oiler	Yes
Chain Pitch (in.)	1/4"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	120 ml
Weight (without battery) (lbs.)	5.29
Replacement Battery Number	GL-254
Replacement Charger Number	GC-404
Replacement Guide Bar	RB3220011726
Replacement Chain	RB311101726

BATTERY & CHARGER INCLUDED
40V battery and rapid charger included. Fully charge 40-volt, 2.5Ah GL-254 battery in 45 minutes.

TOP HANDLE DESIGN
Ergonomic handle design is conveniently located on top for optimum directional control while operating within a tree.

10" BAR AND CHAIN
Designed for quality performance and exceptional runtimes, 10" bar and chain deliver high torque for powerful cut with minimal kickback.

INTEGRATED D-RING
D-ring is integrated for easy tethering.

40 VOLT LITHIUM

10-INCH BRUSHLESS POLE SAW

With an 82V battery and 10" bar and chain, the GS100 Pole Saw features an extension pole for extended reach up to 10 feet for cutting in high places. It also features an automatic chain oiler, side tensioning, angled head for cutting precision, soft grip for comfort and maximum maneuverability, and a branch hook to help remove cut branches.

GS100

TECHNICAL DETAILS

Voltage	82V
Motor	Brushless
Shaft Type	Straight
Chain Speed (feet)	33.6ft./s
Bar Length (in.)	10"
Extension Capable	Yes
Length (ft.)	10'
Power	1.0kw
Chain Brake	No
Automatic Chain Oiler	Yes
Chain Pitch (in.)	1/4"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	80ml
Weight (without battery) (lbs.)	11.24
Replacement Battery Number	GL-250 / GL-400 / GL-500
Replacement Charger Number	GC-400 / GC-420
Replacement Guide Bar	RB3220011726
Replacement Chain	RB311101726

EXTENSION POLE
Features three-piece shaft design and extension pole for longer reach (up to 10 feet).

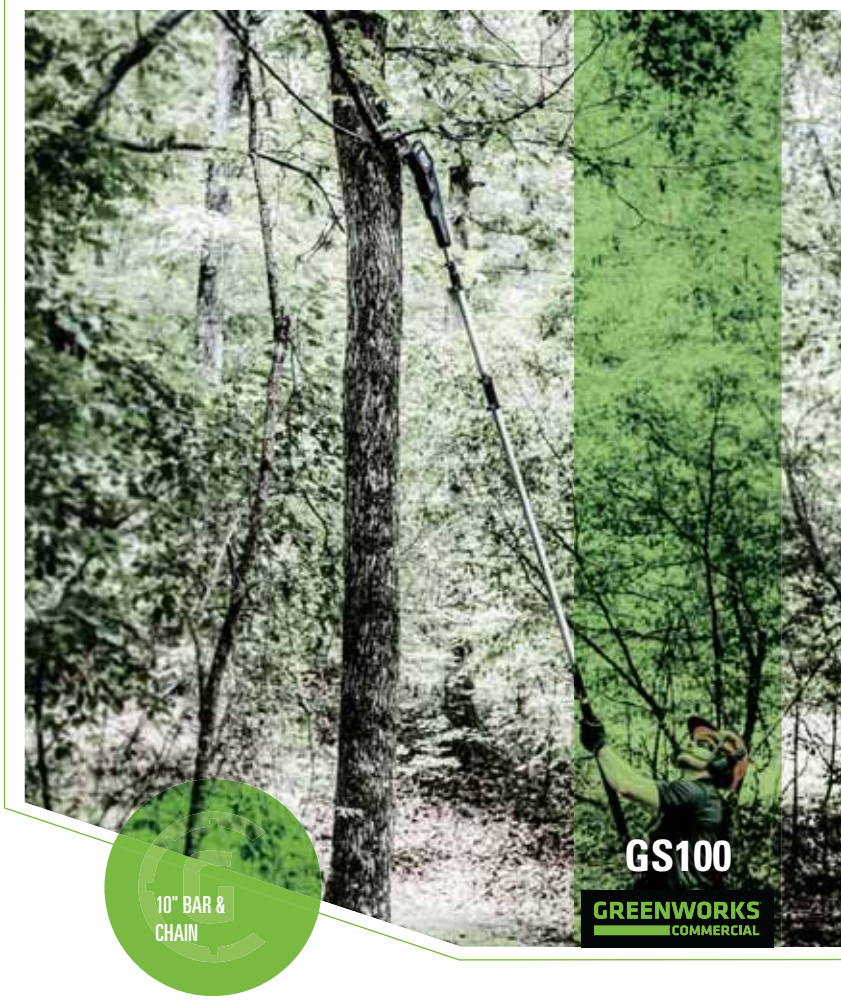

BRANCH HOOK
Integrated branch hook helps capture and manage removal of cut branches.

ANGLED HEAD
Angled head design provides maximum precision and cutting angles.

BATTERY
82V battery and rapid charger included. Advanced electronic control optimizes battery performance in both tool and charger.

"Greenworks' new top handle saw is a game-changer. Using this tool makes job sites safer, with easier maneuverability and better productivity. And their new GS181 rear handle is far and away the most powerful battery-powered saw I've ever run. I'd put it up against any saw running an 18" bar – gas or battery."

MOWERS

25-INCH BRUSHLESS SELF-PROPELLED LAWN MOWER

With a an extra-wide 25" steel cutting deck, two cutting blades, and seven cutting heights, the GMS250 82V 25" self-propelled mower delivers best-in-class power and cutting performance. Featuring our SmartCut™ Technology, the mower detects high or dense grass, and delivers more power to maintain consistent cutting performance in any type of condition. It features our 2-in-1 deck design for bagging or mulching, and dual battery ports for longer, uninterrupted runtimes — when one battery depletes, the mower's power supply is automatically switched to the second battery.

GMS250

TECHNICAL DETAILS

Voltage	82V
Battery	Not Included
Battery Amp Hours	5Ah
Number of Batteries Included	Tool Only
Automatic Switchover	Yes
Blade Speed (RPM)	2,800-3,200
Collector Volume (gal)	15.5
Cutting Height Options	7
Cutting Mode	2-in-1
Deck Width (in)	25"
Deck Material	Steel
Drive System	Self-Propelled Rear-Wheel Drive
Maximum Cutting Height (in)	3-3/4"
Minimum Cutting Length (in)	1-3/8"
Motor	Brushless
Single-Lever Height Adjustment	Yes
Vertical Storage Capable	Yes
Weight (lbs)	71.65
Manufacturer's Warranty	2 Years Product; 2 Years Battery
Replacement Battery Number	GL-250 / GL-400 / GL-500 x (2)
Replacement Charger Number	GC-400 / GC-420
Replacement Blades	RB333012376, 12" | RB333012376, 12" - LH

LONG RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 155 minutes with two (2) 5Ah batteries / batteries and charger sold separately).

SmartCut™ TECHNOLOGY
SmartCut Technology automatically adjusts power when high or dense grass is detected, to deliver consistent, maximum performance in all types of conditions.

2-IN-1 DECK DESIGN
2-in-1 design delivers two cutting options (mulch or bag). With a large 15.5-gallon grass collector, grass clipping disposal is quick and easy.

DUAL-PORT BATTERY TECHNOLOGY
Includes two battery ports with automatic switch-over for longer runtimes. When one battery depletes, power supply is automatically switched to second battery.

21-INCH BRUSHLESS SELF-PROPELLED LAWN MOWER

The GMS210 82V 21" self-propelled, rear-wheel-drive mower delivers the power and performance needed for all-day use. Featuring our SmartCut™ Technology, the mower detects higher or dense grass, and delivers more power to maintain consistent cutting performance. With our multi-function 3-in-1 design for bagging, mulching, or side discharge; a steel deck; and seven cutting heights, this mower works hard. Plus, dual battery ports provide longer, uninterrupted runtimes — when one battery depletes, the mower's power supply is automatically switched to the second battery.

DUAL-PORT BATTERY WITH AUTOMATIC SWITCHOVER

SmartCut™ TECHNOLOGY
SmartCut Technology automatically adjusts power when high or dense grass is detected, to deliver consistent, maximum performance in all types of conditions.

3-IN-1 DECK DESIGN
3-in-1 design delivers three cutting options (mulch, side-discharge, or bag). With a large 14.5-gallon grass collector, grass clipping disposal is quick and easy.

DUAL-PORT BATTERY TECHNOLOGY
Includes two battery ports with automatic switch-over for longer runtimes. When one battery depletes, power supply is automatically switched to second battery.

21-INCH BRUSHLESS LAWN MOWER

The GM210 82V 21" lawn mower features a steel cutting deck and all the power and performance needed to get the job done. With our SmartCut™ Technology, the mower detects higher or denser grass, and delivers more power to maintain consistent cutting performance. With our multi-function 3-in-1 design for bagging, mulching, or side discharge; and seven cutting heights, this mower works hard.

SMARTCUT™ TECHNOLOGY

WINCH

TILLER

SNOW THROWER

82V BATTERY-POWERED PORTABLE WINCH

The Greenworks Commercial 82W1 winch is the first battery-powered portable capstan winch in the world. It's light and portable, and can easily be carried in one hand. With up to 2,200 lbs. of pulling force, it is very powerful, and with no rope length limit, no load is out of reach. The brushless motor provides high torque, zero maintenance, and zero exhaust, with lower noise levels vs. gas-powered winches. This tough, powerful, and lightweight winch is ideal for pulling logs, big game, vehicles, docks, and more.

NO ROPE LENGTH LIMIT
Rope doesn't accumulate on the drum, so desired rope length can be used with constant pulling power.

THREE SPEEDS
Choose speeds from 26 feet per minute to 38 feet per minute.

EASY TO OPERATE
Simply anchor the winch with the provided sling, wrap the rope around the drum and pull! (Sold separately)

82W1

TECHNICAL DETAILS

Voltage	82V
Battery Power Type	Lithium-Ion
Number of Batteries Included	0
Maximum Pulling Force (single line)	2,200 lbs.
Forward Speeds	3
Speed #1	26' / min
Speed #2	33' / min
Speed #3	38' / min
Wire Rope Type	Low-stretch, double-braided polyester Unlimited length (not included)
Recommended Diameter	3/8"
Minimum Diameter	3/8"
Maximum Diameter	1/2"
Motor	Brushless
Power	1 Kw
Gearbox and Gears	200:1 reduction, hardened steel gears in sealed oil bath
Brake Type	Anti-reversing roller clutch bearing
Winch Weight (lbs.) (without battery)	20 lbs.
Manufacturers Warranty	2 Years
Replacement Battery Number	GL-250, GL-400, GL-500
Replacement Charger Number	GC-400, GC-420

AVAILABLE KITS

82W1MK
82V BATTERY-POWERED PORTABLE WINCH KIT

With the 8248MK battery-powered winch kit, you'll be ready to face any situation at any time. This multi-purpose kit is perfect for those who work outside and need to pull loads from time to time, like landscapers, arborists, small woodlot owners, hunters, cottage owners, waterside dwellers, off-roaders, and more. The padded transport bag easily holds the winch and included accessories, with additional room for charger and batteries.

(1x) 82V Portable Winch

(1x) Transport Bag

(1x) 3/8" x 164' Double Braided Polyester Rope

(1x) Swing Side Pulley (3")

(2x) Steel Locking Carabiners

(2x) Polyester Slings (2-3/8" x 6-1/2 ft.)

82W1KT
82V BATTERY-POWERED PORTABLE WINCH W/4AH BATTERY & CHARGER

The 82W1KT kit includes our 82W1 Capstan winch that's light and portable, and can easily be carried in one hand. With up to 2,200 lbs. of pulling force, it is very powerful, and with no rope length limit, no load is out of reach. The brushless motor provides high torque, zero maintenance, and zero exhaust, with lower noise levels vs. gas-powered winches. This tough, powerful, and lightweight winch is ideal for pulling logs, big game, vehicles, docks, and more.

(1x) 82V Portable Winch

(1x) GC 400-Rapid Charger

(1x) GL 400-4Ah Battery

(1x) Polyester Sling (2-3/8" x 6-1/2 ft.)

16-INCH BRUSHLESS CULTIVATOR

The GTL100 16" cultivator has an adjustable 8-1/2" to 10" tilling width and 5" tilling depth. It features an ergonomic bike handle design for control and maneuverability, and is ideal for blending and aerating soil prior to planting, stirring in compost and fertilizer, and controlling weed growth.

RUN-TIME
Advanced battery technology provides reliable power and long run-times (up to 45 minutes with 2.5Ah battery.

ADJUSTABLE WIDTH
Adjustable tilling width from 8" to 10" for even cultivating.

BIKE HANDLE DESIGN
Bike handle design for superior user control.

GTL100

LONG RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 40 minutes with two (2) 5Ah batteries.

COMPACT STORAGE
Easy-fold handles for quick storage and minimal garage space needed.

HEADLIGHTS
Equipped with bright LED headlights for visibility in low light conditions.

DUAL BATTERY PORTS

BRUSHLESS 22" SNOW THROWER

With a powerful, high-efficiency brushless motor, 22" clearing width, and 12-1/2" clearing depth, the SN220 Snow Thrower can handle just about anything. It easily throws snow up to 25 feet, and features a robust handle-mounted rotating chute adjustment lever that puts the user in control for redirecting snow up to 180° from side to side. Two bright LED headlights provide visibility in early morning or night, and dual battery ports provide longer, uninterrupted run-times — when one battery depletes, the mower's power supply can be quickly switched to the second battery.

ZERO TURN MOWERS

60-INCH RIDE-ON ZERO-TURN MOWER

The GZ60R zero-turn mower mows up to 14 acres on a single charge. It is powerful, durable, emissions-free, and runs quietly, with very little maintenance required. It features two 1.7Kw drive motors and three 1.5Kw brushless blade motors that provide a constant 17,000 feet-per-minute of blade speed and EcoMode. It's equipped with a 60" fabricated steel deck and 16 cutting heights, with 10mph max forward speed and 4mph max reverse speed.

GZ60R

TECHNICAL DETAILS

Voltage (volts)	82V
Deck Size	60"
Deck Material	Fabricated Steel Deck
Cutting Heights	1.5" to 5"
Brushless Drive Motor	(2) 1.7KW
Brushless Blade Motor	(3) 1.5KW
Blade Speed	Constant 17,000 FPM and EcoMode
Max. Forward Speed	10
Max Reverse Speed	4
Rear Wheel Size	24"
Front Wheel Size	13"
Run Time	Up to 4 hrs.
Cut Area	Up to 14 Acres
Charge Time	12 hrs.
Weight	1,443 lbs.
Product Warranty	2 Years
Battery Warranty	3 Years

FABRICATED STEEL DECK
Fabricated steel deck with 8-gauge top and sides, 8-gauge motor reinforcements, and 1/2" steel leading edge provide incredible durability and life.

ECO MODE
Easily switch to Eco Mode for controlled blade speed and extended runtime when cutting less dense grass.

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless drive and blade motors for incredible torque and power, extended runtime, and long life.

82 VOLT LITHIUM

52-INCH RIDE-ON ZERO-TURN MOWER

The GZ52R zero-turn mower mows up to 12 acres on a single charge. It's powerful, durable, emissions-free, and runs quietly, with very little maintenance required. It features two 1.7Kw drive motors and three 1.5Kw brushless blade motors that provide a constant 17,000 feet-per-minute of blade speed and EcoMode. It's equipped with a 52" fabricated steel deck and 16 cutting heights, with 10mph max forward speed and 4mph max reverse speed.

Cutting Width (in.)	15"
Dual Line System	Yes
Line Feeding System	Bump
Line Diameter	0.08"
Trigger	Variable Speed
Weight (without battery)	7.27 lbs.
RPM	5,700
Manufacturer's Warranty	3 Years Product; 3 Years Battery
Replacement Battery Number	BAM-706
Replacement Charger Number	CAM-803
Replacement Trimmer Line (in.)	48STL (3-Pack)

LONG RUNTIME
Advanced battery technology provides reliable power and long runtimes (up to 30 min. with 2Ah battery).

BUMP-FEED TRIMMER HEAD
Trimmer line automatically feeds and extends quickly by simply tapping trimmer head on ground.

VARIABLE SPEED CONTROL
Variable speed trigger provides added control when it's needed.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

BLOWERS

500 CFM BRUSHLESS JET BLOWER

The 48B500 blower delivers 120 MPH maximum air speed and 500 CFM maximum air volume. It's equipped with trigger-activated variable speed control, cruise control, and turbo button, and is perfect for clearing leaves and debris.

48B500

TECHNICAL DETAILS

Voltage	48V
Motor	Brushless
Runtime	Up to 22 min. w/ 2Ah Battery
Max. Air Speed (MPH)	120
Max. Air Volume (CFM)	500
Blowing Force at Tip (Newton)	12.45N
Trigger	Variable Speed
Cruise Control	Yes
Turbo Function	Yes
Weight without Battery (lbs.)	4.18
Manufacturer's Warranty	3 Years Product; 3 Years Battery
Replacement Battery Number	BAM-706 / BAM-704
Replacement Charger Number	CAM-803

TURBO BOOST

Turbo button easily boosts airflow for tackling stubborn debris.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY

Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

VARIABLE SPEED CONTROL

Variable speed trigger with cruise control provides added control when it's needed.

BLOWING FORCE

500CFM/120MPH consistent blowing force provides plenty of power to move light- to medium-weight debris like grass clippings, leaves, and sand.

450 CFM JET BLOWER

The 48B450 blower delivers 115 MPH maximum air speed and 450 CFM maximum air volume. It's equipped with trigger-activated variable speed control, cruise control, and turbo button, and is perfect for clearing leaves and debris.

48B450

TECHNICAL DETAILS

Voltage	48V
Motor	Brushed
Runtime	Up to 22min. w/2Ah Battery
Max. Air Speed (MPH)	115
Max. Air Volume (CFM)	450
Blowing Force at Tip (Newton)	10N
Trigger	Variable Speed
Cruise Control	Yes
Turbo Function	Yes
Weight without Battery (lbs.)	4.4
Manufacturer's Warranty	3 Years Product; 3 Years Battery
Replacement Battery Number	BAM-706 / BAM-704
Replacement Charger Number	CAM-803

BLOWING FORCE

450CFM/115MPH consistent blowing force provides plenty of power to move light- to medium-weight debris like grass clippings, leaves, and sand.

TURBO BOOST

Turbo button easily boosts airflow for tackling stubborn debris.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY

Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

VARIABLE SPEED CONTROL

Variable speed trigger with cruise control provides added control when it's needed.

HEDGE TRIMMERS

18-INCH POLE HEDGE TRIMMER

The 48PH18 48V pole hedge trimmer is lightweight and powerful, providing up to 3,000 cuts per minute. It starts with a simple pull of the trigger, and features 18" dual-action, laser-cut steel blades for cleaner cuts; and a pivoting/rotating handle for precise trimming at multiple angles.

48PH18

TECHNICAL DETAILS

Voltage	48V
Motor	Brushed
Trigger	Yes
Blade Length	18"
Length	10'
Cutting Thickness	3/4"
Impact Guard	No
Articulating Head	Yes
Extension Pole Capable	Yes
Cutting Speed	3,000 cuts/min.
Weight (without battery)	8.81
Manufacturer's Warranty	4 Year Product / 2 Year Battery
Replacement Battery Number	BAM-706 / BAM-704
Replacement Charger Number	CAM-803

EXTENDED REACH
Integrated extension provides two feet of additional reach.

LASER-CUT BLADES
Dual-action, laser-cut blades provide a consistent, precise, clean cut from every cutting angle.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

ARTICULATING HEAD
Handle rotates to easily cut at any angle with minimal shift in user's cutting stance.

24-INCH HEDGE TRIMMER

The 48HT24 48V hedge trimmer is lightweight and powerful, providing up to 3,000 cuts per minute. It starts with a simple pull of the trigger, and features 24" dual-action, laser-cut steel blades for cleaner cuts; a rotating rear handle for precise trimming at multiple angles; impact guard, and blade tip guard that protects blades from damage.

48HT24

TECHNICAL DETAILS

Voltage	48V
Motor	Brushed
Trigger	Yes
Weight (without battery)	5.95 lbs.
Blade Length	24"
Length	37.40"
Cutting Thickness	3/4"
Impact Guard	Yes
Rotating Rear Handle	Yes
Anti-jam Function	No
Cutting Speed	3,000 cuts/min
Manufacturer's Warranty	3 Year Product / 3 Year Battery
Replacement Battery Number	BAM-706 / BAM-704
Replacement Charger Number	CAM-803

LASER-CUT BLADES
Dual-action, laser-cut blades provide a consistent, precise, clean cut from every cutting angle.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

3-POSITION ROTATING HANDLE
Handle rotates to easily cut at most angles with minimal shift in user's cutting stance.

BLADE TIP GUARD
Protects blades from damage so they'll stay sharp longer.

CHAINSAWS

16-INCH BRUSHLESS CHAINSAW

The 48CS16 48V chainsaw is designed for hard work and long runtimes. Lightweight, maneuverable, and powerful, it features a 16" bar and chain, automatic chain oiler, and mechanical chain brake.

48CS16

TECHNICAL DETAILS

Voltage	48V
Motor	Brushless
Chain Speed (feet)	64ft./s
Bar Length (in.)	16"
Power	2kw
Chain Brake	Yes
Automatic Chain Oiler	Yes
Chain Pitch (in.)	3/8"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.043"
Oil Tank	180 ml
Weight (without battery) (lbs.)	8.81
Replacement Battery Number	BAM-704
Replacement Charger Number	CAM-803
Replacement Guide Bar	2941102
Replacement Chain	2941202

16" BAR AND CHAIN
16" bar and chain with 3/8" pitch delivers power and performance for fast cutting, easy maneuvering, and limited kick-back.

STEEL BUCKING SPIKES
Features steel bucking spikes that provide leverage for easier, more controlled cutting.

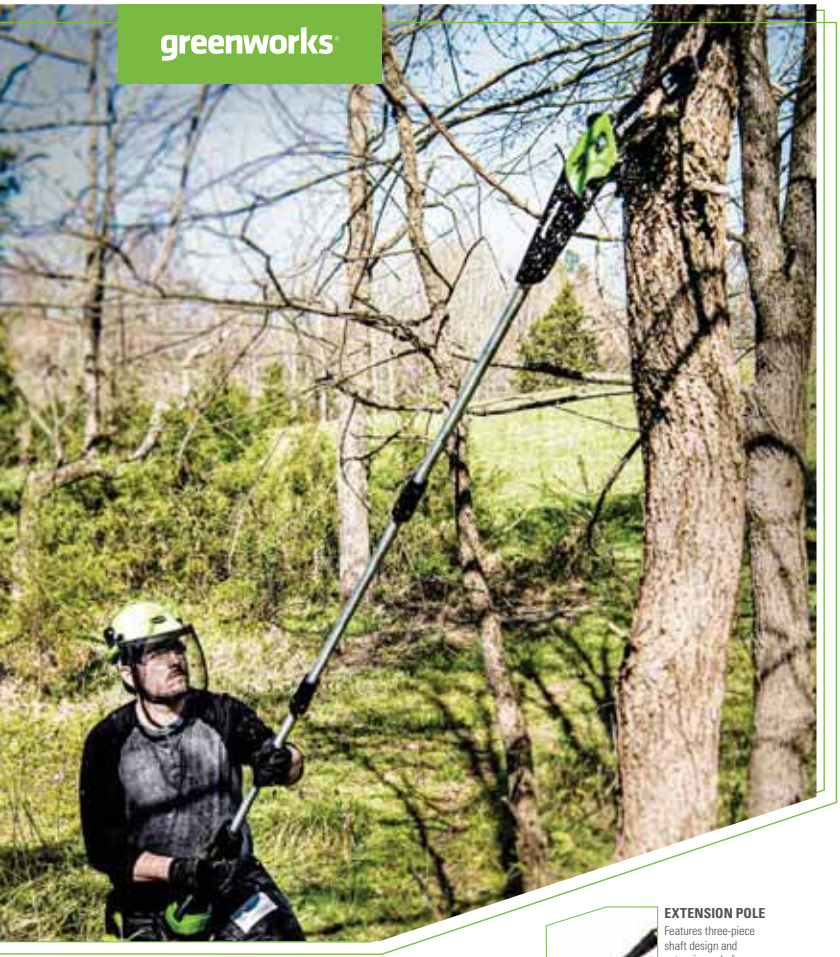

45CC GAS EQUIVALENT
Provides exceptional power and torque common of a 45cc gas-powered engine, with the more reliable, efficient, brushless electric motor.

BATTERY & CHARGER INCLUDED
4Ah 48V battery and charger included.

8-INCH POLE SAW

With an 48V battery and 8" bar and chain, the 48PS8 Pole Saw features an extension pole for extended reach up to 10 feet for cutting in high places. It also features an automatic chain oiler, angled head for cutting precision, soft grip for comfort and maximum maneuverability, and a branch hook to help remove cut branches.

48PS8

TECHNICAL DETAILS

Voltage	48
Motor	Brushed
Shaft Type	Straight
Chain Speed (feet)	26ft./s
Branch Hook	Yes
Bar Length (in.)	8"
Extension Capable	Yes
Length (ft.)	10'
Power	0.72kw
Chain Brake	No
Automatic Chain Oiler	Yes
Chain Pitch (in.)	3/8"
Chain Tensioning	With Tool
Chain Gauge (in.)	0.05"
Oil Tank	80ml
Weight (without battery) (lbs.)	8.15 lbs.
Replacement Battery Number	BAM-706 / BAM-704
Replacement Charger Number	CAM-803
Replacement Guide Bar	2905302
Replacement Chain	2905402

ANGLED HEAD

Angled head design provides maximum precision and cutting angles.

BRANCH HOOK

Integrated branch hook helps capture and manage removal of cut branches.

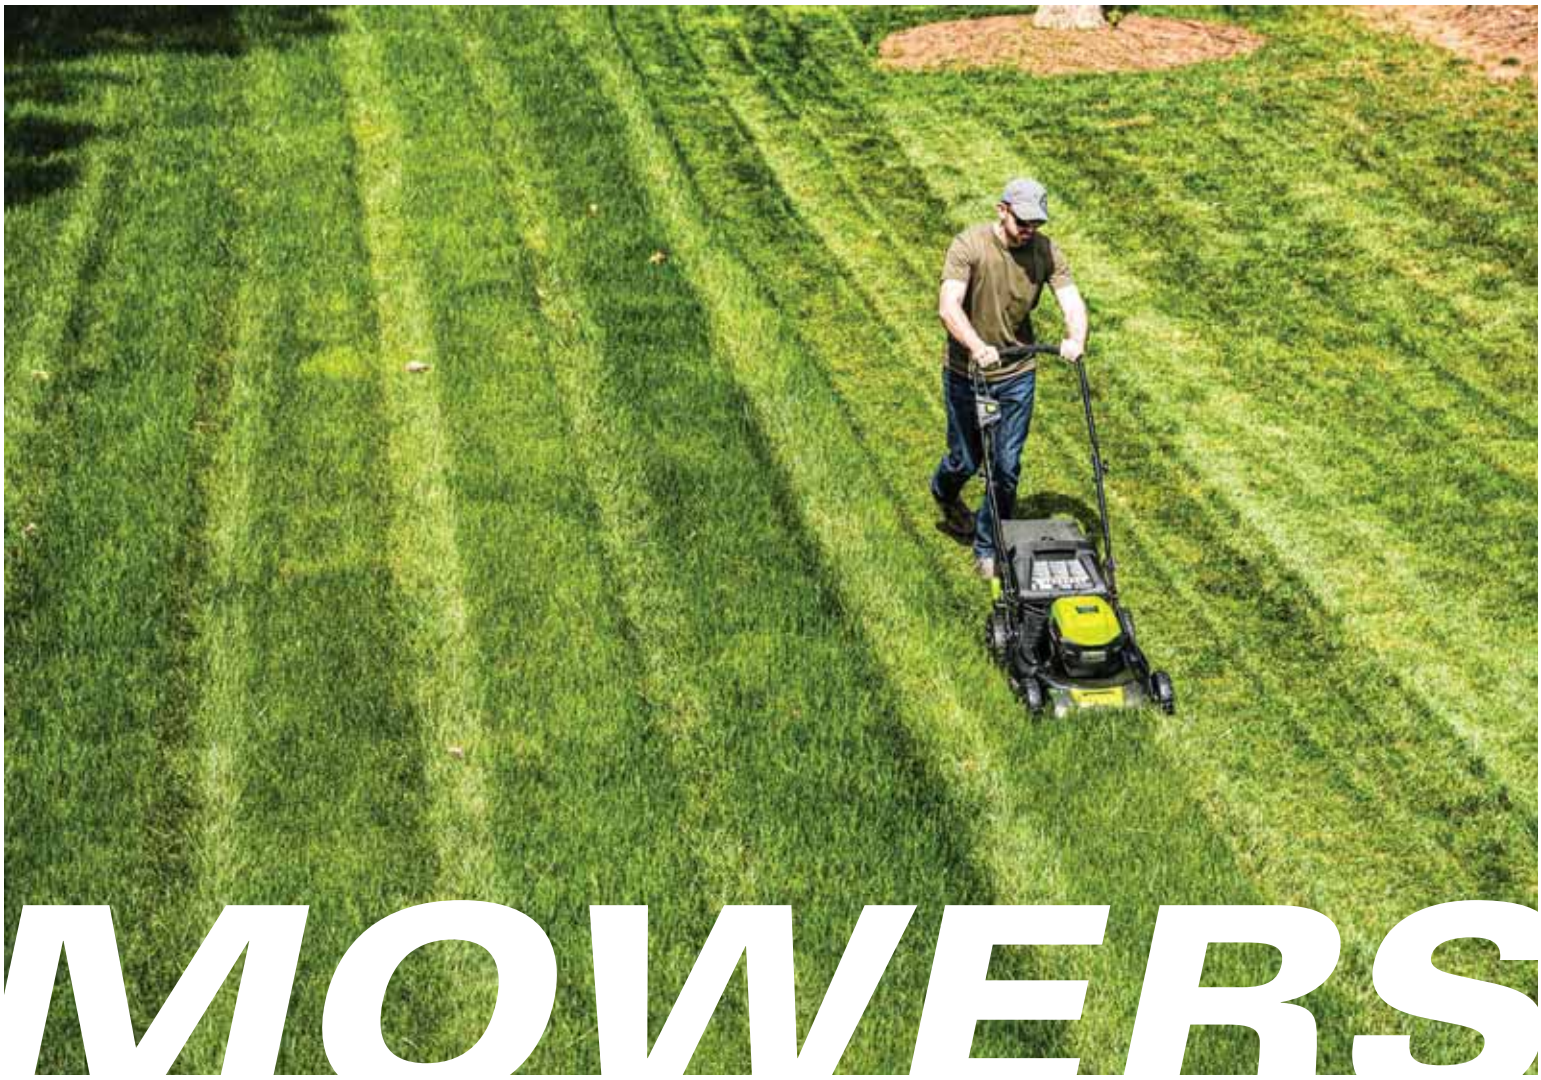

48/24 DUAL-VOLT LITHIUM TECHNOLOGY

Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

EXTENSION POLE

Features three-piece shaft design and extension pole for longer reach (up to 10 feet).

MOWERS

21-INCH BRUSHLESS SELF-PROPELLED LAWN MOWER

The 48SPM21 48V 21" self-propelled, rear-wheel-drive mower delivers the power and performance needed for all-day use. With our multi-function 3-in-1 design for bagging, mulching, or side discharge; a steel deck; and seven cutting heights that adjust quickly with a single lever, this mower works hard.

48SPM21

TECHNICAL DETAILS

Voltage	48V
Battery Amp Hours	4Ah
Number of Batteries Included	1
Blade Speed (RPM)	2,800-3,200
Collector Volume (gal)	14.5
Cutting Height Options	7
Cutting Mode	3-in-1
Deck Width (in)	21"
Deck Material	Steel
Drive System	Self-Propelled Rear-Wheel Drive
Maximum Cutting Height (in)	3-3/4"
Minimum Cutting Length (in)	1-3/8"
Motor	Brushless
Single-Lever Height Adjustment	Yes
Vertical Storage Capable	Yes
Weight (lbs)	68.34
Manufacturer's Warranty	3 Years Product; 3 Years Battery
Replacement Battery Number	BAM-704
Replacement Charger Number	CAM-803
Replacement Blades	RB333041179

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended runtime, and long life.

3-IN-1 DECK DESIGN
3-in-1 design delivers three cutting options (mulch, side-discharge, or bag). With a large 14.5-gallon grass collector, grass clipping disposal is quick and easy.

SELF-PROPELLED
Self-propelled, rear-wheel-drive system with speed control for less strain and easy maneuverability.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

21-INCH BRUSHLESS LAWN MOWER

The 48PM21 48V 21" mower delivers the power and performance needed for all-day use. With our multi-function 3-in-1 design for bagging, mulching, or side discharge; a steel deck; and seven cutting heights that adjust quickly with a single lever, this mower works hard.

48PM21

TECHNICAL DETAILS

Voltage	48V
Battery Amp Hours	4Ah
Number of Batteries Included	1
Blade Speed (RPM)	2,800-3,200
Collector Volume (gal)	14.5
Cutting Height Options	7
Cutting Mode	3-in-1
Deck Width (in)	21"
Deck Material	Steel
Drive System	Push
Maximum Cutting Height (in)	3 3/4"
Minimum Cutting Length (in)	1 3/8"
Motor	Brushless
Single Lever Height Adjustment	Yes
Vertical Storage Capable	Yes
Weight (lbs)	61.46
Manufacturer's Warranty	3 Years Product; 3 Years Battery
Replacement Battery Number	BAM-704
Replacement Charger Number	CAM-803
Replacement Blades	RB333041179

BRUSHLESS MOTOR TECHNOLOGY
Powered by advanced brushless motor for incredible torque and power, extended runtime, and long life.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

3-IN-1 DECK DESIGN
3-in-1 design delivers three cutting options (mulch, side-discharge, or bag). With a large 14.5-gallon grass collector, grass clipping disposal is quick and easy.

QUICK HEIGHT ADJUSTMENT
Features seven cutting heights that adjust quickly with a single lever.

POWER TOOLS

24V DRILL/DRIVER

The 48SPM21 cordless drill/driver features an over-molded handle for exceptional comfort, grip, and control; 500 in.-lbs. of torque; and a variable-speed trigger with two speed settings.

EXCEPTIONAL POWER
Brushed 24V motor delivers 500 in.-lbs. of torque for demanding drilling and fastening tasks.

LED LIGHT
Features an LED light for improved visibility.

DDG301

TECHNICAL DETAILS

Voltage	24V
Motor	Brushed
Batteries	Tool only (Recommend 2Ah BAM 706)
Style	Cordless Drill
Power Source	Battery
Item Package Quantity	1
Chuck Size	1/2"
Batteries Included	No
Torque	500 in.-lbs.
Chuck	24-Position
LED Light	Yes
No-Load Speed	0-450/0-1750/min. (RPM)

VARIABLE SPEED TRIGGER
Two-speed gearbox (600RPM and 1800RPM) for controlled drilling and driving.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

24V IMPACT DRIVER

The ISG301 cordless impact drill/driver delivers 2,500 in.-lbs. of torque; and features a variable-speed trigger and LED light.

EXCEPTIONAL POWER
Brushed 24V motor delivers an incredible 2,500 in.-lbs. of torque for demanding drilling and fastening tasks.

LED LIGHT
Features an LED light for improved visibility.

ISG301

TECHNICAL DETAILS

Voltage	24V
Motor	Brushed
Batteries	Tool only (Recommend 2Ah BAM 706)
Style	Impact Driver
Power Source	Battery
Item Package Quantity	1
Drive Size (Hex)	1/4"
Batteries Included	No
Torque	2500 in.-lbs.
LED Light	Yes
No-Load Speed	3,200/min. (RPM)
Impact Frequency	4,000/min. (RPM)

VARIABLE SPEED TRIGGER
Provides 3,200 maximum RPM for quick drilling and driving.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

24V FLASHLIGHT

Designed with a rotating head, easy-to-use controls, long-lasting battery life, and exceptional brightness, the WLG302 flashlight is ideal for any job.

SUPER-BRIGHT
Provides 100 lumens of LED output.

ROTATING HEAD
Pivoting head easily adjusts light toward specific working area.

OPTIMAL COMFORT
Ergonomic, contoured handle for added comfort during use.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

WLG302

TECHNICAL DETAILS

Voltage	24V
Batteries	Tool Only (Recommend 2Ah BAM 706)
Style	Task Light
Power Source	Battery
Item Package Quantity	1
LED Light	100 Lumens
Pivoting Head	Yes

24V SITTING WORK LIGHT

Designed for convenient, hands-free use and part of the Greenworks Commercial 48/24 Dual Volt platform, the Portable Work Light provides 2000 lumens with its 42 LEDs to light up a storage shed, stall, or anywhere hands-free light is needed.

ROTATION
Rotates 360 degrees to illuminate any direction quickly and hold the spot as long as needed.

BUILT-IN STAND
This portable light easily sits on its built-in stand, and also has multiple hanging options for elevated illumination.

SUPER-BRIGHT
Provides 220 lumens of LED output.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY
Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

24WL1

TECHNICAL DETAILS

Voltage	24V
Batteries	Tool Only (Recommend 2Ah BAM 706)
Style	Task Light
Power Source	AC/DC
Item Package Quantity	1
LED Light	2000 Lumens
Pivoting Head	Yes
Material	Composite

24V ANGLE GRINDER

The AGG302 Angle Grinder is versatile and powerful for use in grinding and polishing applications. It features a spindle lock button, protection guard for added safety, and handle attachment for stability during use.

EXCEPTIONAL POWER

High performance 24V motor delivers 7,000rpms for demanding grinding and polishing tasks.

SAFETY GUARD

Positioning of tool-free guard adjusts quickly and easily.

AGG302

TECHNICAL DETAILS

Voltage	24V
Motor	Brushed
Batteries	Tool only (Recommend 2Ah BAM 706)
Style	Grinder
Material	Plastic/Metal
Power Source	Battery
Item Package Quantity	1
Disc Diameter	4.5" (115mm)
Shaft	5/8"

SPINDLE LOCK

Spindle lock for quick and easy wheel changes.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY

Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.

24V SHOP VACUUM

The Greenworks VUG302 wet/dry vacuum is lightweight and portable, making it easy to move from jobsite to jobsite. With a three-gallon canister, there's plenty of capacity for debris and liquids.

WET AND DRY CAPABILITY

Easily vacuums wet or dry spills.

INTEGRATED ACCESSORY STORAGE

Hose and accessories store easily in built-in compartments.

VUG302

TECHNICAL DETAILS

Voltage	24V
Motor	Brushed
Batteries	Tool Only (Recommend 2Ah BAM 706)
Style	Vacuum
Power Source	Battery
Item Package Quantity	1
Hose Length	5-Foot Hose Length
Debris Tank	3 Gallons
Max Flow	18.6
Max Suction	6.4 kpa
Air Watts	37.4

DUAL-PORT BATTERY TECHNOLOGY

Includes two battery ports with automatic switch-over for longer run-times. When one battery depletes, power supply is automatically switched to second battery.

48/24 DUAL-VOLT LITHIUM TECHNOLOGY

Compatible with not just outdoor power equipment, but all 48V and 24V battery-powered tools, Greenworks 48/24 dual-volt Lithium-Ion batteries are powerful and reliable.
