Elastomeric is the one product for all jobs!! It meets or exceeds the characteristics of silicones, polyurethanes and polysulfides.

Elastomeric Marine Sealant

A one part, fast skinning (10 min.) and fast curing (24 hours) multi-purpose sealant with superior strength, adhesion, elongation and life characteristics. Cures in temps from 20 to 120 degrees fahrenheit and can be wet sanded and painted after cured. Flexibility and compression capabilities are excellent. *It is the perfect sealant for heavy duty service above or below the waterline.*

"Git"-Rot®

Unique two-part liquid epoxy saturates and restores original strength to wood by penetrating the rot. Actually works with the loose rotted fibers. Wood must be dry. Apply by injecting into the wood. Will soak into wood by capillary action. One-half hour pot life after mixing. Cures overnight. Sandable and paintable, can be drilled and screwed. Compatible with fiberglass resins, epoxies and most sealants. Great for transoms, stringers and cabin roof rot in both fiberglass and wood boats.
