Marine Adhesive Sealant 5200

This high-performance polyurethane becomes tack-free in 24-48 hours, and cures in 5-7 days with no shrinking. Stays flexible - allows for structural movement above or below waterline. Stress caused by shock, vibration, swelling or shrinking is effectively absorbed. Remains workable for up to four hours after application. Won't sag or flow in vertical or horizontal seams.

Marine Adhesive Sealant Fast Cure 5200

This fast cure version becomes tack-free in one hour and completely cures within 24 hours delivering strong, flexible seals.

"Git"-Rot®

Unique two-part liquid epoxy saturates and restores original strength to wood by penetrating the rot. Actually works with the loose rotted fibers. Wood must be dry. Apply by injecting into the wood. Will soak into wood by capillary action. One-half hour pot life after mixing. Cures overnight. Sandable and paintable, can be drilled and screwed. Compatible with fiberglass resins, epoxies and most sealants. Great for transoms, stringers and cabin roof rot in both fiberglass and wood boats.
