

## About Us

Liberty Home Care's goal is to continuously strive to meet the medical needs of individuals who want to remain in the comfort of their own home. Liberty Home Care's services are available through several insurance providers as well as private pay options.

An individual can count on Liberty Home Care to provide Personal Care Aides (PCAs) and/or Consumer Directed Personal Care Assistance Services (CDPAS), Durable Medical Equipment (DME) and CPAP fitting and supplies, Personal Emergency Response Systems (PERS), and ramp installations.

## Our Home Health Care Services:

- Personal Care Aides (PCAs)
- Free PCA training for career opportunities
- Consumer Directed Personal Assistance Services (CDPAS)
- Non-emergent transportation (NEMT) for appointments & activities
- Medical equipment (wheelchairs, scooters, respiratory supplies, hospital beds, ramps & grab bars)
- CPAP supplies

## Home Health Care Services

As a Licensed Home Care Services Agency, Liberty Home Care provides a wide range of services in the home, such as assisting with personal care needs, meal preparation, light housekeeping, laundry and companionship. Liberty Home Care is dedicated to enhancing the lives of our patients by providing the highest level of care.

A registered nurse helps determine specific care needs such as what tasks are needed to assist you. Services are provided by Personal Care Aides (PCAs), under the guidance of the Registered Nurse, who will assist you with the tasks that you and the nurse set up. The services are performed in your home and can vary widely depending on your individual needs.

We are a local nonprofit organization that cares about our community and its residents. We ensure the highest quality of home care services and our wide range of products and services are available with just one call.

- Personal care (bathing, toileting, feeding, dressing, grooming)
- Light housekeeping
- Shopping
- Meal preparation
- Escort to appointments
- Long-term care for patients with chronic illnesses
- 24-hour on-call availability

### Who is eligible for PCA services?

- You must be a New York State resident
- Must have a physician willing to sign orders

### How do I pay for services?

- We can set up services under private pay
- We can set up services through certain insurance companies that would authorize those services

## Consumer Directed Personal Assistance Services (CDPAS)

CDPAS is a statewide Medicaid Program that provides an alternative way of receiving home care services where the participant (consumer) has more control over who provides their care and how it is provided. The goal of the program is to give individuals in need of assistance more control over how their home care is provided.

The consumer is in charge of hiring his or her own assistant. They can choose anyone they feel comfortable with, including friends, family or neighbors. The flexibility of CDPAS and how it is administered is what makes it unique. It promotes independence and gives the consumer a true sense of involvement in the decision-making process with his or her own care.

### Who is eligible for CDPAS?

- Must be a New York State resident
- Must be eligible for Medicaid
- Must be authorized for home care services
- Must be willing and able to take an active role in hiring, supervising and terminating of personal assistants
- Must be self-directing or have a representative that can direct your care

## Our Durable Medical Equipment, CPAP, PERS

At Liberty Home Care, we take tremendous pride in everything we do, including ensuring that our customers have the best supplies delivered by friendly and caring technicians. We have a licensed Respiratory Therapist to help provide CPAP education and a proper fit. We are also an approved Medicare provider for mobility devices. When you select Liberty as your durable medical equipment (DME) provider, you receive:

- Home delivery and set up of necessary equipment
- Working directly with physicians and other referral sources to ensure a smooth transition home in a continuum of care.
- Training and follow up in the home on the operation, safety and care of equipment
- 24-hour emergency service
- Insurance verification and billing to Medicare and other third-party insurers (when applicable)
- Service of home medical equipment
- Competitive pricing

We offer free PCA training classes!
