

## Who Is Dr. Aziz?

Dr. Aziz began in 1988 as a humble 1,000-square-foot pharmacy staffed by one employee: the founder, Purdue alum Hamid Abbaspour. With a passion for serving the terminally and chronically ill, Dr. Aziz Pharmacy treated AIDS patients in the '90s who often had nowhere else to go. Since then, it has continued to expand its care, by providing a medical practice, customized compounding, medical equipment and supplies, and nutritional support.

In its never-ending goal to serve all people, Dr. Aziz is proud to open a new location on North Meridian, committed to supporting a new community.

Dr. Aziz and its two locations are named in honor of Hamid's late oldest brother, Dr. Aziz Abbaspour. Though he lost his battle to cancer, Aziz's contributions to the medical field and his passion for helping others are what continue to inspire Dr. Aziz's philosophy today and our commitment to providing the best service we can.
