Doral Dental

Inpatient Behavioral Health by Demographic

Evaluate a breakdown of your inpatient behavioral health care by demographics to illuminate cost drivers.

Inpatient Behavioral Health by Age

Inpatient Behavioral Health by Gender

Inpatient Behavioral Health by Network

Inpatient Behavioral Health by Relationship

Points to consider:

- Is there a specific demographic with higher utilization or costs?
- How can you structure communication and delivery strategies to impact appropriate audiences?

Does your broker provide reliable health care benchmark data?

We can show you how your group's health care claims compare to industry and regional norms, to identify cost and utilization disparities.

Where are the cost drivers in your group's health spending?

Our sophisticated analytics helps us dig deep into your real claims data, to isolate specific cost drivers that we can address with targeted solutions to help manage high health care costs.

Do you have the tools you need to make educated plan design decisions?

Altering plan design is one strategic solution we can implement after analyzing your data, but we take it one step further. With our plan modeler, we let you "test drive" potential changes, so you can see the impact of a change—before making any decisions.
