

## Remanufactured Thermo King Alternators

### Benefits include:

- **Warranty Coverage** – Protection you can count on with Nationwide Dealer Warranty Protection – 1 year parts warranty
- **High-End Components** – All critical components in Thermo King remanufactured alternators are always replaced with new parts
- **Increased Life Span** – Thermo King remanufactured alternators have increased life compared to competitive reman offerings due to critical components being replaced with new parts, as well as extensive testing and final assembly validation performed during manufacturing

## Thermo King Edge: Critical Components Replaced with New

Critical components in the alternator are replaced to ensure maximum life and performance of the alternator. These include brushes and hardware. Other components are evaluated and replaced as needed, something competitive remanufacturers may not do.

New Components = Longer Life = Reduced Maintenance Costs

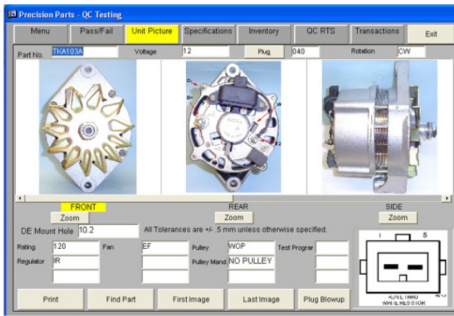

## Thermo King Edge: Extensive, Automated Testing Performed

Eighteen separate regulator tests are conducted, as well as ten regulator tests and a customized ring wave test. This testing is highly automated and ensures that the remanufactured alternator will perform reliably.

Automated Testing = Reduced Risk of Failures = Increased Unit Uptime

# Thermo King Edge: Product and Process Approved by Thermo King Engineering

The entire remanufacturing process, as well as all the replacement components, used for Thermo King alternators are approved by Thermo King's engineering team. Thermo King's knowledge of refrigeration units and the role the alternator has in these units allows for the remanufacturing of a high quality and durable alternator.

Engineered to Thermo King Requirements = Longer Life = Reduced Maintenance Costs

## Compare for yourself the Genuine Advantage

Alternators are critical to the function of your refrigeration unit. **An over-the road alternator failure costs \$550 on average** and often requires the replacement of the battery as well. Be sure you have an OEM tested and approved alternator on your unit!

### Also Available:

Thermo King Standard Life Plus and Extended Life OE Alternators - choose the alternator that best suits your needs!

### Extended Life OE

- Delivers the same performance and life as factory-new Thermo King components
- Maximum corrosion resistance with epoxy powder coat paint and stainless steel hardware
- 2-year parts warranty

### Standard Life Plus

- Completely new alternators deliver reliable performance you can count on
- Fully backwards-compatible for all applicable Thermo King units
- 1-year parts warranty
