INDEX

SUPERBIKE SPEED.

KTM's Chris Fillmore and the rest of the KTM HMC AMA Superbike team has taken a pioneering lead-role in road racing. Multiple top-five finishes and impressive improvement throughout the teams relatively short history are more than a product of sheer speed. With a direct link to KTM North American R&D, Fillmore and the KTM HMC race team are leading the progression of the KTM 1190 RC8 R into a class leader every race weekend.

REAR TEE

HIGH FIVE.

With five national-level championships to his name, it's safe to say Ryan Dungey has made an incredible impact in the motorsports industry. The young Minnesotan is constantly committed to improving all aspects of his racing program – from training to technique to race results on the weekend. After claiming KTM's first-ever 450 Motocross Championship in 2012, he went straight back to work earning more race wins and being a formidable championship contender for the Red Bull KTM team. With the help of Team Manager Roger DeCoster and the rest of his team, race fans and family, Dungey continues his drive to be the best. There is no doubt there are more championships to come for Dungey.

MARVIN MUSQUIN /

SPLATTER ZIP FRONT HOODIE BLACK // SPLATTER TEE ORANGE // SPEED TEE

TEAM MUSQUIN.

Marvin Musquin lives and enjoys a championship life to the fullest. Packing his schedule with training, travel and race wins, the young French import has adapted to the US Supercross and Motocross racing lifestyle perfectly. A hectic schedule doesn't keep him from showing his appreciation for his team. Before every race weekend, Musquin spends quality time with the race team and crew – simply hanging out and catching up. After weeks of training and preparation (including searching for the finest French cuisine California can offer), Marvin ultimately knows his team is the key to delivering the final result.

KURT CASELLI /

INTERLACED LONGSLEEVE // MENS LIGHT WIND JACKET

KEEP YOUR FEET ON THE GROUND.

Most people avoid extreme situations. Racers like Kurt Caselli ride into the thick of them. When you hold multiple AMA National Hare and Hound championships, conquer nasty Baja terrain and go full-steam into a promising Dakar Rally career as if nothing could be simpler, fearless might be a description you're born with. However, even offroad icons like Kurt Caselli are afraid of something. For Caselli, it's heights. Maybe that's why he's so comfortable blitzing across landscapes at breakneck speeds. There's nothing like being grounded.

MARIA FORSBERG /

GIRLS HEART HOODIE // GIRLS RAINBOW BEANIE

GRAVITY TEE // GIRLS TIGER SWEATSHIRT

Maria family

A WORTHY **TROPHY.**

Offroad champion Maria Forsberg is not superstitious, but she'll never let go of one important lucky racing idol – her 2013 Championship Bike. After winning an X-Games Gold Medal, GNCC Championship and EnduroCross Championship on one 250 XC-F, Maria has given the bike a worthy, permanent home in her own house. Lucky charm? Not a chance. But it's hard to beat the motivation the #1 plate provides for the next round of training.

122 NECK BRACE RACE 14

Newly developed high-performance Neck Brace

- When needed, the KTM Neck Brace can safely arrest dangerous movements of the head in both race and road use. The forces arising are transferred effectively from the neck to the upper body. The Neck Brace Race 14 offers scientifically and technologically advanced protection against:
  - hyperflexion (extreme forward movement of the head)
  - hyperextension (extreme backward movement of the head and overstretching of the head to the rear)
  - lateral hyperflexion (extreme movement of the head to the side)
  - axial loading (compression of the spinal column due to a corresponding load on the helmet)
  - posterial hypertranslation (rearwards shunting of the head into the neck)
  - uncontrolled movements of the head / helmet in the event of a crash
  - energy-absorbing material on the outer surface and body contact surface
  - CoreFlex in the thoracic spinal area with predefined breaking point for heavy impact situations
- Variable size adjustment
- Simple handling with quick-release fasteners
- Unique height adjustment system on the back for different helmet spacings or sitting positions
- Including revamped, optional strap
- Detachable clip-on pads for simple cleaning and maintenance
- Made exclusively for KTM by Leatt®

129 TECH 10 BOOT

The benchmark boot in motocross, the 2014 Tech 10 further advances the innovations that make it the most technical motocross boot ever.

- The one-piece, co-injected foot chassis incorporates five different compounds in a single lightweight piece to offer strength, while maintaining flexibility and structural integrity
- Frontal protection features a dual closure system with an internal micr-fiber flap, plus Velcro® for a precise fit closure. Shin incorporates a unique TPU blade system engineered to prevent frontal hyperextension and offer greater flex control
- Contoured TPU calf protector plate offers impact resistance and incorporates Alpinestars innovative rear blade system, formed with hard shock resistant polymer to protect the heel and features a rear hyperextension guard
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support. The sole offers superior durability, grip and feel while riding
- New buckle closure system includes high-impact aluminum bridge closures, with memory and a quick release/locking system and a self-aligning design for easy, precise closure also with improved riding performance and security. All buckles are easily replaceable
- Innovative biomechanical inner ankle brace features medial and lateral “C” torsion bars to control ankle and leg rotation, while allowing freedom of movement

WORK AND PLAY.

There are kids who play with toys. There are kids who play video games. And then there are kids who play with perfecting corners, jumps and holeshots. KTM kids belong to the latter category. While they make it look so easy on the racetrack, the fact is every serious KTM racer puts in maximum effort during the week to be up front. Sure, the best thing about motocross is fun (where else can you jump your dirt bike so much!?), but even the most relaxed young racers earn the chance to fly, roost, slide and rip.

KEN ROCZEN /

ASYMMETRIC ZIP FRONT HOODIE // PHONE CASE GRAPHIC

THE LAND OF OPPORTUNITY.

You can always count on the USA for opportunity. Ken Roczen can tell you a thing or two about that. Celebrated as the “German Wunderkind” during America’s first impressions of the dynamic racer, he has continued to impress with championship speed, voracious scrubs, blistering track attacks and a relaxed, comfortable attitude off the bike. He has truly turned American motocross fans into Roczen fans. And he’s only just begun. Whether signing autographs or enjoying the California surfing lifestyle, Ken Roczen is making the most of his US MX opportunity.

QUALITY

WHY IT'S CALLED "KTM" POWERWEAR:
If you ride a KTM, you know why: Because a KTM is a special motorcycle.
With unrivalled ride dynamics, outstanding workmanship, and well-designed and tried-and-tested solutions down to the smallest detail. Developed, built and tested by real bike riders. READY TO RACE! With precisely this aspiration, we also develop and produce the KTM PowerWear collection. Not any old "cheap promotional articles" that we simply print our logo on, but stylish sportswear of outstanding quality and rider equipment developed and tested seriously by professionals – READY TO RACE!

RESPONSIBILITY:
Quality also has to do with responsibility and sustainability: Consequently, for example, we use raw yarn, fabrics and colorings certified according to the OEKOTEX 100 standard in the sportswear textiles (including T-shirts, sweatshirts, baby clothing) produced in Europe. The cotton fabrics used have very long fibers and are extremely shape-retentive, while elaborate, reactive coloring processes ensure a maximum length of color fastness. We import particularly high-quality and durable nylon yarns (produced mainly in the Far East) for the important materials used in motorcycle clothing. We test all textiles regularly for prohibited substances, such as AZO dyes and allergenic constituents. Just as regularly, we check that exclusive use is made throughout the world of certified production sites without child labor or illegal workers.

SIMPLY ASK THE PROFESSIONALS:
One significant benefit when KTM develops rider equipment: we've no need to buy in "external experts". Our facilities are literally teeming with former and current pro riders who we can ask. The responsible production manager is a former Grand Prix rider and when we want to test a new enduro jacket, then we hand it over to KTM Adventure Tours for a few weeks. Afterwards, we know precisely what works in practice and what doesn't.

DON'T FORGET THE OIL CHANGE!
A T-shirt is like a motorbike: you can enjoy it for longer if you stick to the maintenance instructions. Although there's no need for an oil change with an enduro jacket, there are still a few things that ought to be observed. Otherwise, nylon can discolor, leather can break or the T-shirt can shrink more than it should. The things that need to be paid particular attention to are specified on the care label and we don't just list them for fun. If you abide by the instructions, we promise that you'll enjoy your PowerWear item for a long time.

YOUR NOTES

READY TO RACE
»www.ktm.com

www.kiska.com

KTM engineers Ready to Race machines for experienced riders for use in closed courses and designated riding areas as depicted.

"Ready to Race" is more than extreme performance machines. It's an attitude and a way of life. It's how we approach our sport: prepared, safely, responsibly and smart.

Racing and riding can be dangerous. Before you ride a KTM, take an approved training course. Read and understand your owners manual and instructions. Wear all protective gear: helmet, goggles, gloves, boots and body wear. Always ride only on surfaces your machine is built for. Respect others, all laws, the environment, restricted surroundings and noise limitations. Ride the correct machine for your skill level and age. Ask your KTM dealer for assistance with these requirements.
