

Quartzsite Ride

February 4, 2012

Approx mileage: 400

Riders: Mary, Gary, Scott, Wayne and Steve

The annual February DRC ride to Quartzsite, AZ started out on the chilly side at 41 degrees. Five dedicated riders started out with John riding escort until his turn off for breakfast in Boulder.

The riders were Mary, Gary, Scott, Wayne and Steve. The route was in a loop so we had new road for almost the entire day.

While cool on the ride to Kingman, it warmed up on the way to Lake Havasu and Parker. Off road dirt races were underway near Parker and many hundreds of cars were parked in the desert and along the highway to observe the racing course and its many jumps.

Meeting up with our former DRC club President, Nevin who had just ridden in from Phoenix, we had a great lunch at the Yacht Club and enjoyed the car show and sales booths.

At a balmy 75 degrees, it was hard to leave Quartzsite and head back to Las Vegas thru Needles. A beautiful ride back, it was cool at Searchlight, as usual, but a very comfortable 57 when seeing the lights of the Vegas Valley just after dark.
