

# MOBILITY

## Manual and Power Wheelchairs

Manual wheelchairs combine durability and comfort at an affordable price. Most come with standard features like swing-away footrests, and fold easily for transport and storage. Power Wheelchairs are battery operated and require less exertion and muscle power to operate.

- **Lightweight Chairs**
- **Bariatric Chairs**
- **Power Chairs**
- **Ultra-Lightweight Chairs**
- **Transport Chairs**

## Rollators

Rollators are walkers with brakes and wheels. The addition of wheels allows more flexibility and mobility both indoors and outside. Features like adjustable handles, lockable breaks, a seat with a backrest and a handy enclosed compartment add to the unique convenience of this versatile product.

## Pride and Golden Tech Scooters

✓ For Purchase or Rental

Scooters are available in several styles and a variety of colors.

- **Transportable/Travel Scooters**
- **Three-wheeled scooters**
- **Four-wheeled scooters**
- **Heavy duty scooters**

## Pride and Golden Tech Lift Chairs

✓ For Purchase or Rental

Lift chairs provide a bit of extra help to individuals who have trouble getting up and out of a chair or need to sleep in a reclined position. They are available in many styles, sizes, fabrics and colors. Come and check out our wide variety in our showroom.

# RESPIRATORY

Respiratory products are used to treat conditions that include sleep apnea, asthma, COPD and other lung diseases. We carry a wide variety of respiratory equipment to meet your specific needs.

## Nebulizer

Nebulizers are designed to deliver respiratory medications quickly and efficiently. A unique micro-pump operates silently and smoothly to deliver medication accurately every time. Fun character masks and nebulizer units can make treatment time more enjoyable.

- Non-Portable Nebulizer Compressors
- Portable Nebulizer Compressors
- Wide Variety of Pediatric Nebulizers
- Reusable Neb Kits
- Disposable Neb Kits

## CPAP/Bilevel & Supplies

CPAP and Bilevel machines have evolved to include advanced technology that has resulted in smaller, lighter units that provide gradual air pressure adjustments, heated humidity and a quieter treatment experience. We can help assess your needs and provide the appropriate machine.

- Portable CPAP's
- CPAP Sanitizers that include UV and Ozones

## PEP (Positive Expiratory Pressure) Therapy

- Incentive Spirometers
- Opti-Chambers/Spacers
- Flutter Valves

## Masks

We carry a wide variety of masks to help CPAP users find their personal level of comfort.

- Full-Face Masks
- Nasal Pillows
- Gel Nasal Masks
- Nasal Masks

## Accessories

- CPAP Rechargeable Batteries for Camping
- CPAP Moisture Therapy
- CPAP Pillow
- USB Ports
- Mask Liners
- CPAP Mask Wipes
- Essential Oils

## Oxygen

### Portable Oxygen

Portable oxygen concentrators (POC's) are designed to provide you with prescribed oxygen flow rate while you are away from home. Portable oxygen options allow you the freedom to maintain an active lifestyle.

## Oxygen Concentrators

Concentrators provide a safe and efficient way to improve the quality of life for individuals who require supplemental oxygen. Concentrators weigh less than 50 pounds and will be serviced and maintained by us.

Inogen G5

## Traveling With Oxygen

✓ Inogen G5 | 6 Liters: For Sale or Rent

The prospect of traveling while on continuous oxygen can be a bit intimidating. With a bit of advanced planning and a little extra time to confirm details, you can travel safely and comfortably via any mode of transportation.

When traveling by car, plane, cruise ship or train ...

- Have a copy of your current prescription.
- Have a copy of your Doctor's release form.
- Make arrangements with us one or two weeks in advance.
- Bring the appropriate cords and attachments.
- Allow yourself plenty of lead time regardless of travel medium.

## Complex Respiratory Care

- ✓ Based on Prescription and Medical Necessity

Full-time respiratory therapist and a full-time RT assistant on staff.

Some medical diagnosis that would require complex respiratory care would be COPD, Neuromuscular Lung Disorders, and Interstitial Lung Disease.

- Trilogy Ventilators
- Trach Supplies
- Aerosol Therapy
- Heated Humidity
- Cough Assist
- Table Top Oximeter (Option With and Without Alarms)
- Suction Machines & Accessories
