

Manufacture's Certification

This is to certify that the metal roofing product purchased* contains an AkzoNobel TRINAR® COOL CHEMISTRY®, CERAM-A-STAR® 1050 COOL CHEMISTRY®:

- a) Is appropriately pigmented and is specifically and primarily designed to reduce the heat gain of a dwelling unit when installed on the dwelling unit; and,
- b) Meets or exceeds Energy Star® Roof program requirements for steep-slope roofs (as in effect at the time of installation), in accordance with IRS Notice 2006-26

Furthermore, a pre-painted metal roof with the above-mentioned roof coating is an “eligible building envelope component that qualifies for the credit allowed under Section 1333 § 25C of the Energy Policy Act of 2005, later amended by the Emergency Economic Stabilization Act of 2008.”

Declaration Statement:

Under penalties of perjury, I declare that I have examined this Certification statement, and to the best of my knowledge and belief, the facts presented are true, correct and complete.

Kenny Queen, President

*this certification is only for approved colors on panels and trim and not for any other components used on the roof
