

Track Loader Information Sheet

Please read and sign at the bottom.

- Customer is responsible for fuel (diesel only, on or off-road)
- If returned less than full, we charge \$6.15 per gallon for fuel.
- Customer is responsible for reinstalling the tracks if they come off.
- Do not “hard steer” the track machine in loose debris or on slopes.
- A “hard steer” in loose debris WILL result in the tracks coming off.
- Customer is responsible for any costs associated with reinstallation of thrown tracks. The cost of reinstallation will be: \$100.00 trip charge and \$150.00 per hour until the employees are back at the shop.
- If you will be working in the woods particularly with the grapple bucket, understand that you are the most susceptible to throwing off the tracks, and it will benefit you to understand how a multi-point turn will help alleviate this problem and save YOU money.
- Customer has paid a 10% damage waiver which will cover the cost of “normal wear and tear” however, damage waiver will not cover misuse, abuse or neglect. These costs are solely the responsibility of the Customer.
