ONE OF NORTHERN MINNESOTA FINEST RESORTS

ALL ROADS LEAD TO LAKE VERMILION.

Avid sports enthusiasts can explore endless miles of reefs, sunken islands, drop-offs and underwater structures for walleye, muskie, bass, northern pike, crappie, and bluegill. More than 1,200 miles of shoreline and 365 islands provide the perfect backdrop for a relaxing and enjoyable vacation exploring the many protected bays and inlets of Lake Vermilion.

Since 1969, The Department of Natural Resources has been stocking Walleye in Lake Vermilion and maintain a hatchery on the lake from which most all northern Minnesota lakes are stocked. In the past few years, in excess of 33,000,000 Walleye have been returned annually to Lake Vermilion from the DNR hatchery.

That, combined with "catch and release" practices, assures future fish populations and memorable vacations for anglers. More than 40,000 acres of sky blue waters invite you to experience days of unmatched natural displays of wildlife, breathtaking scenery, and fabulous sunsets. Sandy beaches, water-skiing, canoeing, and sailing entertain guests of Lake Vermilion.
