PromptCare Home Infusion Opens New Pharmacy in King of Prussia, PA

Customized Care Plans and Clinical Expertise Now Available for Home Infusion Patients Transitioning Home

CLARK, NEW JERSEY, Oct 1 2014 – PromptCare[®], the leading regional provider of specialty respiratory products and infusion therapy services, announced the grand opening of their new home infusion pharmacy in King of Prussia, PA.

The opening of this new facility has provided PromptCare the ability to expand services to a highly populated area where it's critical to transition people home for better patient care. Through this location, the company will provide a wide offering of home infusion therapies including, but not limited to Immune Globulin Therapy (IVIG), Total Parenteral Nutrition (TPN), Enteral formulas and IV Antibiotics. The company will also be offering to area hospitals and physicians its renowned Cardiac Transition Program which utilizes an innovative team approach in the delivery of inotropic drug therapies in the care of the advanced stage heart failure patient.

"We are thrilled to be adding this third pharmacy to PromptCare's expanding 16 Northeast service locations. This allows us to deliver our superior patient care and disease-focused infusion programs to the greater Philadelphia area," said PromptCare's President and Chief Executive Officer Tom Voorhees. He added, "With our customized patient programs and highly skilled and dedicated team, more patients are able to live independent and enriched lives in the comfort of their own homes."

About PromptCare Companies

PromptCare[®] is a leading regional provider of specialty respiratory products and infusion therapy services.
