PromptCare Companies® Opens New Service Locations in Syracuse and Rochester, New York

Customized Care Plans and Clinical Expertise Now Available for Clinically Complex Patients Transitioning Home

CLARK, NEW JERSEY, September 1st, 2014 – PromptCare®, the leading regional provider of specialty respiratory products and infusion therapy services, announced the grand opening of their Syracuse and Rochester branches. These new locations allow expand PromptCare’s clinical footprint to provide high tech respiratory services to patients in upper central New York.

PromptCare Respiratory provides high-tech, patient-focused respiratory equipment and quality patient care throughout the Northeast servicing areas. One of the nation’s largest providers of home ventilator therapy and clinical expertise, they provide industry-leading technology and customized clinical reports for the most fragile and complex ventilated patients, including pediatric patients.

“We’re pleased that we can now provide our brand of superior patient care and clinical expertise to the Syracuse and Rochester area,” said PromptCare’s President and Chief Executive Officer Tom Voorhees. Voorhees added, “It’s been gratifying to see how our customized patient programs and dedicated team are enabling people to become more independent and live fuller lives in the comfort of their own homes.”

About PromptCare Companies

PromptCare® is a leading regional provider of specialty respiratory products and infusion therapy services. Established in 1985 and headquartered in Clark, New Jersey, PromptCare® serves at-home pediatric and adult patients in the Mid-Atlantic and Northeastern United States. Operating from local service locations, PromptCare® offers the most advanced high-tech equipment to ensure better patient care and outcomes. A preferred partner for superior management of medically complex cases, our expert clinical and dedicated customer-relationship professionals provide reliable and seamless referral processes and unmatched levels of transitional care and ongoing service.
