kevin.obrien@promptcare.net**PromptCare® Celebrates 30 Years of Innovation and Leadership in Specialty Home Health Care*****Regional Provider of High-Tech Respiratory Products and Home Infusion Therapy
Services Delivering Patient-Centered Care Throughout the Northeast***

CLARK, NEW JERSEY, March ## 2015 – PromptCare®, the leading regional provider of specialty respiratory products and home infusion therapy services, is proud to celebrate this month 30 years of innovation and leadership as a specialty home health care service provider. The company was established in 1985 as a “one-stop” provider of home care services, including durable medical equipment and standard respiratory and home infusion therapy. Since then, PromptCare has significantly expanded, transitioning to focus specifically on “high tech, high touch” respiratory and home infusion services.

Over the course of three decades, PromptCare hit several key milestones of providing better patient care for patients with complex medical conditions. In 2003, for example, PromptCare was acquired by MidMark Capital (MMC), which provided the capital to launch industry-leading disease-centered transitional care programs. These include the Cardiac Transitions Program, as well as its pediatric and adult ventilator programs, enabling patients with the safest, smoothest transition from the hospital to their homes.

Other key milestones include acquisitions that significantly expanded PromptCare’s service areas. These include Ocean Breeze Medical in Farmingdale, New York; PRO2 Respiratory Services, based in King of Prussia, Pennsylvania; and Arcadian HealthCare, based in Parsippany, New Jersey. These strategic acquisitions expanded the company’s respiratory service offerings to the metropolitan New York, Long Island and upstate New York markets, as well as the Delaware and Philadelphia markets. They have also continued to open new home infusion pharmacies, bringing its total number of locations to 14 throughout the Northeast area.

To better communicate their advanced programs and expanding locations, PromptCare launched in 2014 a new expansive patient-centered and referral-friendly website, www.promptcare.net.

“The company is committed to focusing exclusively on high-tech respiratory and infusion therapy services in the home,” says PromptCare’s President and Chief Executive Office Tom Voorhees. “Since opening our doors in 1985 at a single location in Clark, New Jersey, PromptCare has been dedicated to delivering better patient care throughout the Northeast,” Voorhees says. “We look forward to many more years of providing expert clinical guidance, case management and ongoing care to ensure the highest patient satisfaction in the industry.”

About PromptCare Companies

PromptCare® is a leading regional provider of specialty respiratory products and home infusion therapy services. Headquartered in Clark, New Jersey, PromptCare® serves at-home pediatric and adult patients in the Mid-Atlantic and Northeastern United States. A preferred partner for superior management of medically complex cases, our expert clinical and dedicated customer-relationship professionals provide reliable and seamless referral processes and unmatched levels of transitional care and ongoing service.
