## MOTIF LUNA WITH RECHARGEABLE BATTERY

Sophisticated, strong, and soothing. The Luna is the powerful breast pump from Motif Medical, built for modern motherhood and proven to provide More Milk in Less Time<sup>®</sup>. Perfect for pumping at home, at your desk, or in the car, the Luna has great functions, special features, and provides More Milk In Less Time<sup>®</sup> for today's busy, modern mom. On-the-go moms can now choose a rechargeable battery-powered version of the Luna. With a battery life of 2+ hours between charges, the battery-powered Luna is the perfect portable pump and is perfect for today's busy mom.

### Features:

- **Compact:** Weighs just 2 pounds and is compact in size for easy mobility.
- **Quiet:** A quiet 45-decibel hum that won't wake your baby.
- **Closed System:** Backflow protection keeps the motor and tubing clean, preventing contamination.
- **Settings:** Easy customization options let you quickly find what works best for you and your baby. Offers massage mode to stimulate let-down by mimicking a baby's nursing pattern and expression mode to express milk from the breast as efficiently as possible.
- **Strength:** Powerful pumping, with hospital strength suction up to 280 mmHg.
- **Session Features:** Handy auto shut-off turns the pump off after 30 minutes of use.
- **Display:** Backlit LCD screen is easy-to-read and won't strain your eyes.
- **Extra Perks:** LED night light has 3 settings - perfect for pumping while your baby is sleeping or assembling your pump in the dark. Plus, sturdy milk collection containers have a stark printed scale to make measuring simple.

## **What's Included:**

- 1 – Luna Breast Pump (Battery-Powered)
- 2 – 24mm Breast Shields
- 2 – 28mm Breast Shields
- 2 – Valves
- 2 – Diaphragms
- 2 – Tubes
- 2 – Milk Collection Containers
- 2 – Milk Collection Container Caps
- 2 – Milk Collection Container Covers
- 2 – Milk Collection Container Disks
- 2 – Bottle Nipples
- 1 – Power Adapter

# Elvie Stride™

Elvie Stride is an ultra-quiet, hands-free breast pump that sits under your clothing, offering more mobility and discretion. Elvie Stride gives you back control of your hands – and your day. Designed to move with you, Elvie Stride is easy to set up for single or double pumping. Liberating users from sockets and restrictive wires, now mothers can discreetly express without compromising on pumping performance. Users can connect Elvie Stride to the free app, allowing them to control the pump remotely, save preferred settings, and track pumping history.

## Product Benefits:

- **Hands-free**  
Worn under clothing, Elvie Stride collects milk in-bra, keeping your hands and body free to move. Take a walk, take a call, or just take time for yourself— with nothing to tie you down.
- **Ultra-quiet**  
Built with noise reduction technology, Elvie Stride blends into the background for true pumping discretion.
- **Connected**  
Connect to the free Pump with Elvie app to control your pump remotely and keep tabs on your pumping history. It's smarter, so you don't have to pump harder.
- **Complete control**  
Choose from 10 intensity settings in both Stimulation and Expression modes for optimal comfort and efficiency. Customize your pump so it always starts with your preferred settings.

## Product Features:

- 5 oz milk per cup
- Portable and easy to use
- Hospital grade strength (up to -270 mmHg)
- 2 modes, 20 intensity settings
- Personalization feature to save user default preferences
- Suitable for single or double pumping
- Closed system
- Dishwasher safe & BPA Free

1 Hub

- 2 Valves
- 2 Diaphragms
- 1 Charging Cable
- Instructions for Use

2-year warranty on the Hub and 90-day warranty on all other components. For complete warranty information, see our Instructions for Use.

## BABY BUDDHA RECHARGEABLE PUMP

- **PORTABLE AND COMPACT:** While other breastfeeding pumps are too bulky and drag you down with their weight, the BabyBuddha double electric nursing pump is conveniently small and can be hung around your neck using the included lanyard. You can now free your hands and pay more attention to your baby as you pump.
- **EXTRA-QUIET OPERATION:** We've fitted our machine with an impressively quiet mechanism that makes for discreet and silent pumping. Freely pump without waking up your little one or drawing unnecessary attention to yourself.
- **HYGIENIC DESIGN:** We take the safety of your newborn very seriously. That's why our breast milk feeding pump comes with a closed system to ensure milk doesn't flow backward and get contaminated. The BabyBuddha infant breastfeeding pump is also BPA-free to keep the integrity of the expressed milk intact.
- **EXPERIENCE THE COMFORT:** No dealing with nursing pumps that result in sore nipples. Our double electric pump comes with a soft cushion that mimics a baby's lips, an anti-backflow design that eliminates the need to lean forward while expressing, and multiple modes to massage the breast and suction the milk.
- **SIMPLE TO USE:** No complex controls here. Just use the trackball on the electric breastfeeding pump to easily navigate through the stimulate and suction modes. Our wearable breastfeeding pump machine is also rechargeable to keep it powered as you get things done.

What's included:

BabyBuddha Smart & Rechargeable Breast Pump Unit (Black)

Two (2) BabyBuddha Bottles with **24mm flanges**

Two (2) Bottle Bases

Two (2) Bottle Storage Caps

Two (2) Bottle Hygiene Covers

Two (2) Pump Covers

Three (3) Detachable tubes (for easy cleaning)

USB Charging Cable (Charges to full in three hours)

Detachable Lanyard

Carrying Tote

## SPECTRA S1 PLUS

For moms who are always on the go and don't have access to an outlet, the Spectra S1 is perfect for you. Once you charge the internal battery, the S1 is portable, so you can pump without having to worry about a power source.

Providing all the features of the S2, with the addition of an inbuilt rechargeable battery, you are now able to benefit from the efficiency, power and performance of a hospital grade breast pump, without compromising on portability.

### Features:

- Backflow Protection technology protects breast milk and baby from bacteria, mold and viruses while pumping
- 2 Phase Cycling with Let-Down Button provides adjustable suction and cycling in let-down and expression mode
- Customizable pump settings to mom's own response to follow her flow and find her best settings every time
- Can be used as a single or double electric pump
- Pump is designed to be quiet while in use
- All components that come in touch with milk are BPA-free
- Powered by an AC Adaptor or rechargeable internal battery (both included)
- LCD Display, timer and two-level lighting function
- Maximum suction strength of 270mmHg
- Set the pumping program to the speed and rhythm most effective for your body
- The gentle 'massage mode' offers a short, shallow pump setting designed to stimulate mom's letdown reflex
- Settings can be switched to expression mode for a deeper, slower pattern of suction which mimics baby's nursing rhythm
- Adjustable suction settings in both letdown and expression modes

**Included:**

- Double electric breast pump
- Rechargeable internal battery
- Timer and nightlight
- Locking rings and discs
- 2 - Backflow protectors
- 2 - Standard 24 mm size flanges
- 2 - Standard 28 mm size flanges
- 2 - Milk collection bottles and caps
- 2 - Duck bill valves
- 2 - Tubing
- AC adapter
- Product manual

# FREEMIE ROSE

Introducing Freemie Rose! Our newest premium pump system is perfect for any occasion! Enjoy lightweight and quiet pumping that is more discreet than ever before. This complete system includes our rechargeable portable pump and a set of our new SlimFit5 Cups with 30mm breast flanges, and soft SlimFit Fitmie insert sizes 28mm and 25mm. Each SlimFit5 Cup holds up to 5 ounces of milk and is less noticeable than any other wearable.

Sleek, chic cups work with a pretty, powerful pump to deliver a feature-rich pumping experience:

- Hospital grade suction
- Noise reduction technology
- Smaller and lighter with simplified settings
- USB-C connection
- Independent suction and cycle controls with **Turbo®** power
- Adjustable sleep timer
- Memory settings
- Automatic shutoff
- Easy-to-read LCD screen

## CONTENTS:

- Rose Pump
  - SlimFit5 Cup Set (30mm breast flanges)
  - SlimFit Fitmie Inserts (28mm and 25mm)
  - L-Connectors
  - Pump Connection Kit
  - USB-C Cord
  - Clothing Clip
  - Carrying Bag
- Made without latex, BPA, BPS or DEHP.

**NEW**

## Freestyle Flex™

# The flexibility to pump any time, anywhere

Freestyle Flex™ is a breast pump designed to fit into your life: its light, compact design and USB-chargeable battery give you the flexibility to express wherever and whenever you like, with no compromise on pumping performance.

Intuitive multifunctional interface with:

- Count-up timer
- Delay start & pause functions
- Pumping setting & battery charge indicators

USB cable port for powering up anywhere you are\*

Compact design fits easily into your palm, pocket, or bag, and weighs under 300 g (10 oz)

Detachable lanyard loops round your wrist to keep breast pump secure

Built-in rechargeable battery lasts up to eight double pumping sessions – no need to search for an outlet

## Get connected

Freestyle Flex™ connects to the **MyMedela app**, to give you additional support and encouragement. You can use the app to track and log your pumping sessions, and create a personalised profile tailored to you, your baby, and your feeding choices.

## Research-based technology

Freestyle Flex™ also benefits from Medela's research into pumping technology, tested by scientists with the help of breastfeeding mums.

**Double pumping** with Freestyle Flex™ yields more milk in less time than pumping from each breast in turn.<sup>1</sup>

**2-Phase Expression®** technology mimics babies' natural sucking rhythm – faster at first to stimulate milk flow, then slower to feed – for more comfortable and efficient pumping.

**PersonalFit Flex™** breast shields can be adapted to fit your shape for individual comfort and increased milk flow.<sup>2</sup>

**Overflow protection** (a closed system) prevents your breast milk from entering the tubing and motor.

\*Only use the power adapter and cable that come with the breast pump

# Spectra® Synergy Gold

portable double adjustable electric breast pump

rechargeable for  
pumping on the go

## Made with Natural Nursing Technology™

Combining gentle vibration with soothing suckling action to stimulate milk production, our Natural Nursing Technology simulates the natural way a baby nurses and promotes a more comfortable pumping experience.

### FEATURES:

-  **Rechargeable**  
portable with built in battery
-  **Double Adjustable**  
individual vacuum settings for each breast;  
up to 270mmHG hospital strength suction
-  **Massage Mode**  
simulates the natural suckling of baby
-  **Closed System**  
prevents backflow into tubing or pump
-  **Touch Screen**  
touchscreen LCD with timer control
-  **Ultra-Quiet**  
for discreet pumping sessions

### INCLUDES:

Everything you need to get started

## ELVIE WEARABLE WIRELESS PUMP

Designed to be discreet, the Elvie Pump is a breastfeeding mom's best friend. This hands-free, wearable breast pump fits inside nursing bras so you can pump on the go—without the hassle of external cords or tubes to get in your way. Elvie's silent motor helps you pump from anywhere (like work, the store and more) with confidence. BPA-free and dishwasher-safe, the breast pump only has five parts so cleanup is a breeze. Sync your breast pump to the Elvie app to control the seven variable suction settings in the palm of your hand, as well as track your milk output and more.

**PUMP ANYTIME, ANYWHERE:** The smallest, lightest and quietest wearable breast pump Elvie Pump makes it possible to pump on your own terms - at home, at work or on-the-go.

**SILENT:** Revolutionary technology eliminates noise so that you can pump in peace - anytime, anywhere. It's in stealth mode so that you don't have to be.

**WEARABLE:** Small and lightweight, Elvie Pump is worn inside a standard nursing bra, making it truly hands-free.

**HASSLE-FREE:** From setup to clean up, using Elvie Pump is simple - it has just 5 parts to clean and takes seconds to assemble. No cords, no wardrobe changes, no fuss.

**SMART:** Connect to the free Elvie Pump app to monitor milk volume in real time, track pumping history for each breast and control the pump remotely.

**RESPONSIVE:** Elvie Pump automatically switches from Stimulation into Expression mode when it detects let-down and will pause when the bottle is full.

## What's included:

- 2 Hubs (pump mechanism)
- 4 Bottles (150ml/5oz)
- 4 Storage Lids
- 2 Breast Shields (24mm)
- 2 Breast Shields (28mm)
- 4 Valves
- 4 Spouts
- 4 Seals
- 4 Bra Adjusters
- 2 USB Charging Cables
