

Tiller Handles

Yamaha's Multifunction Tiller Handle combines ergonomic design, smooth shifting, fingertip controls and an extended throttle handle for virtually effortless maneuverability. Add to that Yamaha's exclusive Variable Trolling RPM Switch (VTS® F40LA through F90 models only) and a 90° throttle rotation angle, and steering is not only easy, it's more comfortable too. It's easy to see why our Multifunction Tiller Handle won an IBEX® Innovation Award in 2005.

F25 Complete Tiller Handle Assembly (~2016)
Includes everything required to mount a tiller handle on F25 Outboard produced until 2016.

6X4-42103-0D-00

Tiller Handle Main Assembly

The tiller handle main assembly requires the use of a fitting kit below to mount to a Yamaha Outboard.

6X4-42103-58-00

Tiller Handle Fitting Kits

The fitting kits are used along with the Main Handle Assembly. They typically include the wire harness and mounting hardware.

2-Stroke Fitting Kits

Application	Part Number
40,50	6X4-42102-63-00
60, 70	6X4-42102-52-00
80, 90	6X4-42102-42-00

4 Stroke Fitting Kits

Application	Part Number
F20B	6X4-42102-K0-00
F25C / T25C	6X4-42102-E0-00
F40B (Carburated)	6X4-42102-32-00
F30 / F40LA (EFI)	6X4-42102-71-00
F50, F60, F70	6X4-42102-23-00
F75, F90A	6X4-42102-12-00
F90B/VF90	6X4-42102-J1-00
F115 / VF115	6X4-42102-02-00
F115B / VF115B	6X4-42102-H0-00
