

# CARE. When you're not there.

## "Is Mom OK?"

SafeinHome is the only safety technology that lets you find out anytime, anywhere right from your smartphone, tablet or computer!

1-(855)isMomOK

## Why SafeinHome?

### Peace of mind

You worry about Mom or Dad living alone. With SafeinHome you'll know what's going on 24/7.

### Saves time

Taking care of Mom takes time. SafeinHome lets you manage your Mom's care on **your** schedule.

### Seniors can live at home longer

Closer oversight helps seniors live safely at home which saves money. Your Mom won't have to sell her home to pay for care.

*SafeinHome has given us peace of mind. I believe that this type of system is essential for those with elderly relatives. They desire their independence and we need to feel comfortable with them continuing to live alone.*

Carin A., Chino, CA

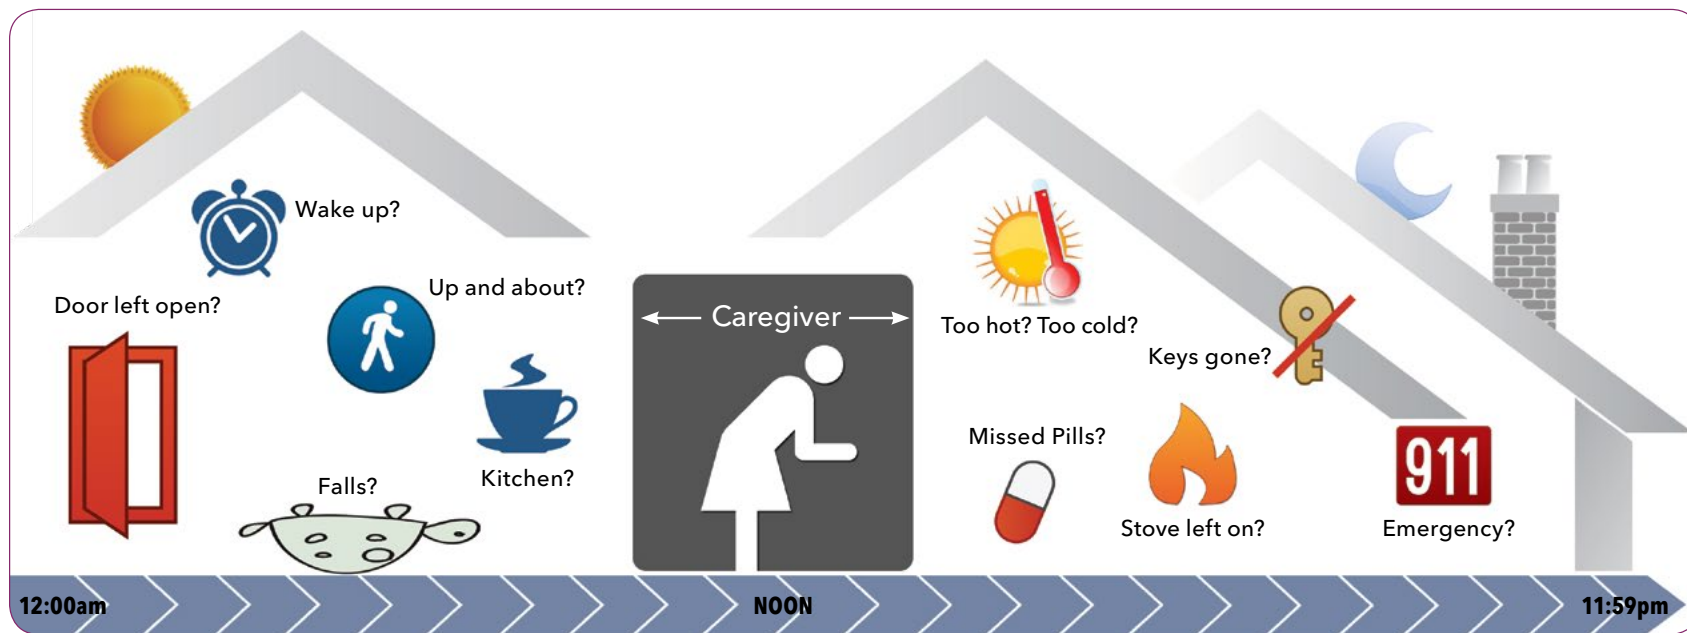

*I'd recommend SafeinHome because if I ever worry about my father, like if he's not answering the phone, I can just check and see where he is.*

Justin P., Walnut Creek, CA

# What's happening at Mom's when you're not there?

With SafeinHome, you'll know - anytime, anywhere.

## How it Works

- Small sensors in the senior's home transmit activity data to family members' mobile devices or computers
- Customized Alerts let you know if anything is out of the ordinary
- No need for internet or a separate phone line
- SafeinHome offers an emergency call button, just in case
