

NEW PrimAir™ Return Air Bulkheads Frequently Asked Questions

Do the new PrimAir Return Air Bulkheads work with SB and older units?

- Yes, the New PrimAir RABHs will work with SB and older units

Do the new PrimAir RABHs work with competitive units?

- Yes, the New PrimAir RABHs will work with competitive units

Why is the hardware not included with the new RABHs?

- Hardware is not included as it is common hardware that most dealers already have in their dealerships
- If you would like to buy your hardware through Thermo King we have it available in boxes of 100 pcs

How many of the New PrimAir RABHs come on a pallet?

- Up to 25 RABHs will fit on a single pallet
- This is true for both RABH's with and without debris screens

How many RABHs do I need to qualify for free freight?

- Any quantity greater than one full pallet (25pcs) qualifies for free freight

Why would I want debris screens on my RABH?

- Debris screens keep plastic wrap and other debris out of the evaporator coil
- Getting plastic wrap or other debris covering the evaporator coil can greatly reduce the efficiency of the unit
- These screens are installed on the back side of the RABH and are delivered preinstalled

Can I still buy the old style RABH?

- The new RABH will fully replace the old style once the current inventory is sold out
