## **BMW Motorrad**

## **Maintenance schedule**

0145 - G 450 X

## 00 00 119 BMW Running-in Check (see Maintenance Schedule)

Customer Registration No. Odometer reading  Corder No. Date Mechanics + Manager's signature  Reading fault memory with BMW Motorrad diagnostic system  Checking air filter element  Engine-oil change, with filter  Checking clean-side chamber of the intake air silencer for leaks  Checking condition of exhaust system  Checking rear brake pads and brake disc for wear  Checking front brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking and venting telescopic forks  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tread movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state  Confirming BMW Service in on-board documentation				
Reading fault memory with BMW Motorrad diagnostic system  Checking air filter element  Engine-oil change, with filter  Checking clean-side chamber of the intake air silencer for leaks  Checking fuel system  Checking soundition of exhaust system  Checking condition of exhaust system  Checking cooling system  Checking cooling system  Checking front brake pads and brake disc for wear  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking security of spring strut and checking for leaks  Checking security of spring strut and checking for leaks  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking tree and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Customer	Registration No.	Odometer reading	
Reading fault memory with BMW Motorrad diagnostic system  Checking air filter element  Engine-oil change, with filter  Checking clean-side chamber of the intake air silencer for leaks  Checking fuel system  Checking soundition of exhaust system  Checking condition of exhaust system  Checking cooling system  Checking cooling system  Checking front brake pads and brake disc for wear  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking security of spring strut and checking for leaks  Checking security of spring strut and checking for leaks  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking tree and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state				
Checking air filter element  Engine-oil change, with filter  Checking clean-side chamber of the intake air silencer for leaks  Checking fuel system  Checking condition of exhaust system  Check the security of the threaded fasteners for frame, side stand and trim panels  Checking cooling system  Checking front brake pads and brake disc for wear  Checking frear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Order No.	Date	Mechanic's + Manager's signature	
Engine-oil change, with filter  Checking clean-side chamber of the intake air silencer for leaks  Checking fuel system  Checking condition of exhaust system  Check the security of the threaded fasteners for frame, side stand and trim panels  Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Reading fault memory with <b>BMW Motorrad</b> diagnostic system			
Checking clean-side chamber of the intake air silencer for leaks  Checking fuel system  Checking condition of exhaust system  Check the security of the threaded fasteners for frame, side stand and trim panels  Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking air filter element			
Checking fuel system  Checking condition of exhaust system  Check the security of the threaded fasteners for frame, side stand and trim panels  Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking treas and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Engine-oil change, with filter			
Checking condition of exhaust system  Check the security of the threaded fasteners for frame, side stand and trim panels  Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking tres and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking clean-side chamber of the intake air silencer for leaks			
Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking chain, chain guide, sprocket and pinion  Checking tree dom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking fuel system			
Checking cooling system  Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking trees and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking condition of exhaust system			
Checking front brake pads and brake disc for wear  Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Check the security of the threaded fasteners for frame, side stand and trim panels			
Checking rear brake pads and brake disc for wear  Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking cooling system			
Visual inspection of brake hoses and connections  Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking front brake pads and brake disc for wear			
Checking brake fluid level, front and rear  Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking rear brake pads and brake disc for wear			
Checking security of spring strut and checking for leaks  Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Visual inspection of brake hoses and connections			
Checking steering-head bearing  Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking brake fluid level, front and rear			
Checking and venting telescopic forks  Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking security of spring strut and checking for leaks			
Checking rear wheel swinging arm and swinging-arm pivot bearings  Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking steering-head bearing			
Lubricating swinging-arm shaft  Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking and venting telescopic forks			
Checking drive chain, chain guide, sprocket and pinion  Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking rear wheel swinging arm and swinging-arm pivot bearings			
Checking chain tension  Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Lubricating swinging-arm shaft			
Checking tires and wheels  Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking drive chain, chain guide, sprocket and pinion			
Checking freedom of movement of throttle cables and checking for kinks and chafing  Final inspection and check of roadworthiness  Checking battery charge state	Checking chain tension			
Final inspection and check of roadworthiness  Checking battery charge state	Checking tires and wheels			
Checking battery charge state	Checking freedom of movement of throttle cables and checking for kinks and chafing			
	Final inspection and check of roadworthiness			
Confirming BMW Service in on-board documentation	Checking battery charge state			
	Confirming BMW Service in on-board documentation
